# GETTING STARTED

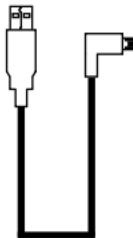

## 1.1 Inside the Box

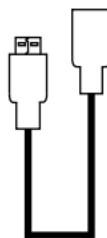

Smart TV Stick

AC Adapter

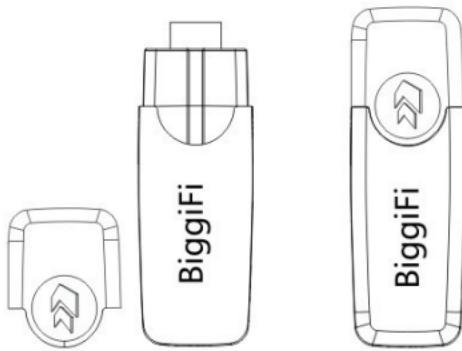

Mirco USB Cable

HDMI Cable  
(Pro Unit Only)

## 1.2 Smart TV Stick

### *1.3 What You Need*

High-Definition TV

An HDTV with an available HDMI port.

Wireless Network

An 802.11b/g/n Wi-Fi wireless network (wireless video streaming requires 802.11g or 802.11n), or 10/100 Base-T Ethernet network (requires adapter, not included).

A high speed Internet connection (DSL, cable or LAN).

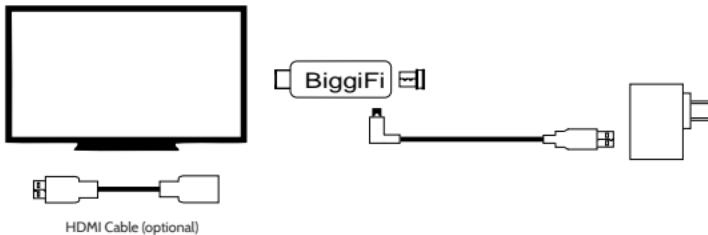

Login Information

User names and passwords needed to access WiFi, apps (Facebook, Gmail, Spotify).

## 1.4 Connecting the Biggifi to Your TV

1. Connect the USB cable to the A/C adapter.
2. Plug the biggifi into the HDMI port of your TV.
  - 3a. If it is difficult to access the HDMI port, use the supplied HDMI extension cable.

3. Set your TV or home theater receiver to the HDMI input where the is connected.

## 1.5 Settings

1. With the remote, click the SETTINGS icon  on the Home screen.

## 1.9 Wireless Network Configuration

1. Click the Setting Icon  and choose WIFI from the options on the left. Make sure the switch is highlighted “ON”.
2. Select your wireless network.
3. Enter your wireless password (if needed).

## 1.6 Access the On-screen Keyboard

1. Click the Settings Icon  and choose DISPLAY from the option on the left. Check the box under Status Bar to turn on the on-screen keyboard.
2. Hit the Home button on the remote to go back to the Home screen.
3. Open the browser and click on the address bar at the top.
4. On the status bar at the bottom of screen, click the keyboard icon.
5. Click the “OFF/ON” switch to turn on the on-screen keyboard. This also disables the keyboard on the remote.

## Account & Using the Play Store

### 2.1 Add A Google Account

1. Click SETTINGS and select ACCOUNTS & SYNC from the options on the left.
2. Click on “ADD ACCOUNT” in the top right corner.
3. Click on “GOOGLE” and follow the prompts.

## *2.2 Access the Google Play Store*

1. Click the Google Play Store icon  located at the bottom of the Home screen.
2. Create or sign in with your Google account and follow the prompts.

## *2.3 Download and Install Apps*

1. Click the Google Play Store icon  located at the bottom of the Home screen.
2. Search and select your desired app, click “Install”.
3. App will download and icon will appear on your Home screen.

### *3.1 The Basics*

1. Your remote has been charged.
2. Both ends of the USB cable are connected to the Smart Stick and the TV USB or A/C power adapter.
3. The Smart Stick is securely connected to the HDMI port of your TV, and has been turned on to the correct HDMI input.
4. The remote receiver is inserted into the USB port on the back of the Smart Stick.
5. Your wireless router and network connections are functioning properly.
6. You have the correct user name/password for your wireless network.

If you are still having issues try resetting the equipment and wireless router, wait 30 seconds and reconnect.

### ***3.2 Unable to Locate Wi-Fi Network***

1. Make sure your wireless router is functioning properly.
2. Try resetting the router. Wait 5-10 minutes and try to connect again.
3. Make sure the correct user name/password combination has been entered.
4. Use the supplied HDMI cable to move your Equiso away from the TV.
5. Perform a factory reset(page 13).

### 3.3 No Sound

1. Make sure the volume on the TV is turned up and the mute option is not selected.
2. Make sure your TV or home theater receiver is set to the correct HDMI output
3. Make sure the volume on the remote is turned up.
4. Connect to your WiFi and have the latest update installed.

## FCC Statement

This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

## FCC Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
