

USER MANUAL

This microphone is meant to be paired with the mini speaker XQ1a / XQ1 / XQ1b

Button Functions

10 Power button      11 Vol+      12 Vol-      13 Voice changer button

Operating Instructions

- 1.Long press button 10 to turn the microphone on/off. When the speaker is powered on,long press the microphone power button to start karaoke mode directly
- 2.Short press buttons 11/12 to adjust microphone volume
- 3.Short press buttons 13 to activate voice-changing mode, and long press the same buttons to deactivate it

Specifications

Charging power input: 5V 1A Type-C	BT version: 6.0
Batter capacity: Li-ion 14500 3.7V 500mAH	Weight: 57g

Note:

- 1. Do Not Use High-Wattage Chargers for Product Devices.
- 2. After charging, disconnect and unplug the power cord promptly when charging is complete.
- 3. Persistent low battery states accelerate cell degradation. Maintain charge levels above 20% to optimize battery service life.
- 4. Prevent moisture ingress and high-temperature exposure. This device contains batteries, PCB, speakers, motors, and other electronics susceptible to environmental degradation.
- 5. Prohibit disassembly, impact, compression, collision, immersion in liquids, or exposure to open flames. Violation may cause catastrophic failures.

FCC Caution:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
-Reorient or relocate the receiving antenna.  
-Increase the separation between the equipment and receiver.  
-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.  
-Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
