Confirm the charger is good or not, if the charger is damaged, please buy a available charger.

## **6. Maintain Guide**

In order to improve product performance, to extend its lifetime, do achieve below items

1. users can't disassembly product privately ,if need repair service, kindly contact authorized distributors, distributor will provide service for the product that you brought.
2. T,o operate according to user manual's instruction, to avoid cause problems by unregulated operation.
3. System will occupy internal memory, thus internal memory will be less than the memory capacity that marked.
4. Please kindly set up appropriate volume, not suitable to set up loud volume when using earphone, when fell not good,please adjust down volume or stop use.
5. Don't use it when on drive or work on street.
6. please keep it into good environment, far away from strong light, dried or humidity environment. Please don't use it under high-temperature, high-humidity,mass dust environment. To avoid its life time
7. Don't fall down or collision or shock of it, otherwise will cause screen broken or can not display.
8. Far away from water or other liquid.
9. Use clean soft cloth to wipe it.
10. Keep it with power.

As to keep update and improve of product, the SW of equipment on operate interface and functions maybe exist a little difference with user manual. We deeply apologize to you for the inconvenience caused.

## **FCC WARNING**

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE 1: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

NOTE 2: Any changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
