YEELIGHT

YEELIGHT CHRISTMAS STRING LIGHTS | 10M/33FT

QUICK START GUIDE

What You Get

Before you install

1. Unpack the box and check all items that are included.

2. Make sure to power on the strip light and confirm if it lights up.

Product Overview

Note: Illustrations of product, accessories, and user interface in the user manual are for reference purposes only. Actual product and functions may vary due to product enhancement.

Installing Your Device

1. Connect the control box to the power adapter.

2. Begin by securing the string lights at the bottom and then winding them around the branches from the bottom to the top.

3. Plug the lights into the power source.

Device Resetting

Press and hold the Power button for 5 seconds within one minute after powering on the device. When the device breaths in blue light, it will start to restore the factory settings. When the light changes to rainbow streamer, it means that the device has been successfully reset.

*When connecting the device to a new phone, you need to reset the device.

Pairing Your Device with Yeelight App

1. Download the Yeelight app from the app store (iOS devices) or Google Play (Android devices).

2. Ensure that the device has been powered on and reset successfully.

3. Turn on Bluetooth on your smartphone.

4. Open the app and follow the onscreen instructions to complete pairing.

Manufacturer: Qingdao Yeelink Information Technology Co., Ltd.

Address: 10F-B4, Building B, Qingdao International Innovation Park, No.1 Keyuan Weiyl Road, Laoshan District, Qingdao City, Shandong Province, P.R.China

Warnings & Cautions

This product is rated as IP65 waterproof. It can be used outdoors but cannot be immersed water.

The power adapter is rated as IP44 waterproof. It can be used outdoors but cannot be rinsed or immersed in water.

Interconnection shall be made only by the use of the supplied connectors. Any open ends must be sealed-off before use.

The light string should be used with the provided LED driver only.

To prevent early product failures, the product should only be used in environments with a temperature range of -20° to 40°C (-4° to 104°F).

Do not allow children to install the strip light alone.

The light source of this luminaire is not replaceable; when the light source reaches its end of life the whole luminaire shall be replaced.

Under normal use of condition, this equipment should be kept a separation distance of at least 20cm between the antenna and the body of the user.

WEEE Disposal and Recycling Information

All products bearing this symbol are waste electrical and electronic equipment (WEEE as in directive 2012/19/EU) which should not be mixed with unsorted household waste. Instead, you should protect human health and the environment by handing over your waste equipment to a designated collection point for the recycling of waste electrical and electronic equipment, appointed by the government or local authorities. Correct disposal and recycling will help prevent potential negative consequences to the environment and human health. Please contact the installer or local authorities for more information about the location as well as terms and conditions of such collection points.

Replaceable control gear by an end-user.

EU Declaration of Conformity

Hereby, Qingdao Yeelink Information Technology Co., Ltd., declares that the radio equipment type YLVD-0055 are in compliance with Directive 2014/53/EU.

FCC Compliance Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

To satisfy FCC&C RF exposure requirements, a separation distance of 20 cm or more should be maintained between the antenna of this device and persons during device operation.

To ensure compliance, operations at closer than this distance is not recommended.

Limited by local law regulations, version for North America does not have region selection option.

Supplier's Declaration of Conformity

Under FCC Part 15 SDoC procedure
