Each vehicle requires 1 "DAA" 1.5V battery (not included). Each vehicle controls require 2 "DAA" 1.5V batteries (not included). When changing batteries, gold equipment is required. See diagram below for best performance.

1. Carefully remove foam from the package.
2. Load the battery compartment on the bottom of each vehicle, and the handle of each vehicle.
3. Load the battery and insert the battery door.
4. Load the battery and insert the battery door.
5. Load the battery and insert the battery door.
6. Load the battery and insert the battery door.
7. Load the battery and insert the battery door.
8. Load the battery and insert the battery door.
9. Load the battery and insert the battery door.
10. Load the battery and insert the battery door.

NOTE: For best operation, operate bumper vehicle on light surface.

NOTE: The equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference to licensed operations. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, due to the potential for interference with other devices, the user is advised to take the following steps to minimize the risk of interference:

- Do not use the equipment near other electronic devices.
- Do not use the equipment near other electronic devices.
- Do not use the equipment near other electronic devices.
- Do not use the equipment near other electronic devices.
- Do not use the equipment near other electronic devices.
- Do not use the equipment near other electronic devices.
- Do not use the equipment near other electronic devices.
- Do not use the equipment near other electronic devices.
- Do not use the equipment near other electronic devices.
- Do not use the equipment near other electronic devices.

WARNING: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

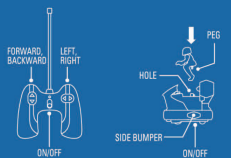

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference from licensed operations.
