Re: FCC ID: 2ABLX-QSYNC433FM

To Whom It May Concern:

The following application is submitted on behalf of our client, Qmotion Incorporated, for evaluation of their model QSYNC-433FM for certification under FCC Part 15.231.

The QSYNC-433FM is a TCP/IP to 433MHz bridge for controlling Qmotion shades with Apple or Android mobile devices. Mobile devices can connect to a network over Wi-Fi and control any QSyncs that are found.

The QSYNC-433FM was tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink that reads 'R. Sam Wismer'. The signature is written in a cursive, flowing style.
