1. Product Overview

The Android Media Player is a versatile device designed for a seamless multimedia experience. Powered by an Allwinner A40 quad-core processor and equipped with a BL-M8761BU2 Bluetooth module, this player offers high-definition video playback, audio streaming, and smart connectivity features.

2. Technical Specifications

Production specification for Retail 3.0 BT Media Player

- **Processor**: Allwinner A40 Cortex-A7 Quad-core 1.2 GHz
- **Graphics Processor**: Mali-400MP2 GPU
- **Memory**: DDR3 (1GB/2GB options available)
- **EMMC**: 8GB
- **Operating System**: Android 7.1.1
- **Bluetooth Module**: BL-M8761BU2

3. Product Features

- **High-Performance Processing**: The Allwinner A40i-H processor ensures smooth video playback and efficient multitasking capabilities.
- **Dynamic Graphics**: The Mali400MP2 GPU delivers high-quality graphics rendering for an enhanced visual experience.
- **Expandable Storage**: The option to increase memory and storage allows for more multimedia content and applications.
- **Wireless Connectivity**: The integrated BL-M8761BU2 Bluetooth module enables wireless audio streaming and data transfer.

4. Getting Started

5. **Power On**: Connect the device to a power source using the provided power adapter.

6. **Initial Setup**: Turn on the device and follow the on-screen instructions to set up the Android operating system.

3. **Connectivity**: Connect to a Wi-Fi network for internet access and content streaming.

5. Bluetooth Configuration

5.1 Pairing Steps

1. **Enable Bluetooth**: Navigate to the device settings and turn on the Bluetooth function.
2. **Make Discoverable**: Ensure the BL-M8761BU2 module is set to be discoverable.
3. **Search for Devices**: On the device you wish to connect, search for available Bluetooth devices and select the Android Media Player.
4. **Pairing Confirmation**: Confirm the pairing on both devices. A pairing code may be required, which is typically 0000 or 1234, but refer to the device's manual for specifics.
5. **Connection**: Once paired, the devices will establish a connection, and you can begin wireless audio streaming or data transfer.

5.2 Configuration Parameters

- **TX Power**: Adjust the transmission power to optimize the range and stability of the

Production specification for Retail 3.0 BT Media Player

Bluetooth connection.

- **Channel Selection**: Select the appropriate Bluetooth channel to avoid interference with other devices.
- **Security**: Set up a secure connection with a passkey or use the device's built-in security features to protect data during transfer.

6. Operating the Media Player

- **Content Playback**: Use the device's interface to browse and select media files for playback.
- **Volume Control**: Adjust the volume to your preference using the device's controls or a connected remote.
- **File Management**: Manage your media files through the device's file system or by connecting to a computer.

7. Maintenance and Support

- **Regular Updates**: Keep the device's software up to date for optimal performance and security.
- **Battery Care**: For models with removable batteries, follow proper charging and discharging practices to extend battery life.
- **Warranty and Service**: The Android Media Player comes with a warranty covering manufacturing defects. For support, contact the manufacturer or authorized service centers.

Note: The content of this user manual is based on the provided specifications. Users should refer to the actual product documentation for precise details and additional instructions. The Bluetooth configuration may vary depending on the specific model of the BL-M8761BU2 module and the Android version of the media player.

• Trouble Shooting

- The tablet cannot be turn on. please reset the tablet. For any other inquiries, please contact the distributors.
- Files cannot be downloaded.

Production specification for Retail 3.0 BT Media Player

1. Make sure the tablet connect the computer properly.
 2. Check if the memory is full.
 3. Please check if the USB cable is damaged.
- Serious noise. Please check if the audio files are damaged. You can play the other audio files to identify if the file has been damaged. The damage can cause the serious noise.
 - The screen display messy code. Please check if you select the correct language.

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

ISED Statement

English: This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.

Production specification for Retail 3.0 BT Media Player

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

The digital apparatus complies with Canadian CAN ICES-3 (B)/NMB-3(B).

French: Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux RSS exemptés de licence d'Innovation, Sciences et Développement économique Canada.

L'exploitation est soumise aux deux conditions suivantes :

(1) Cet appareil ne doit pas provoquer d'interférences.

(2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

L'appareil numérique du ciem conforme canadien peut - 3 (b) / nmb - 3 (b).

This device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

cet appareil est conforme à l'exemption des limites d'évaluation courante dans la section 2.5 du cnr - 102 et conformité avec rss 102 de l'exposition aux rf, les utilisateurs peuvent obtenir des données canadiennes sur l'exposition aux champs rf et la conformité.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.

Cet équipement est conforme aux limites d'exposition aux rayonnements du Canada établies pour un environnement non contrôlé.

RF Exposure Statement

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

Cet équipement doit être installé et utilisé à une distance minimale de 20 cm entre le radiateur et votre corps.

Safety Precautions

Read these simple guidelines before using your device. Not following them may be dangerous or illegal.

Aircraft

Switch off in aircraft and follow any restrictions. Wireless devices can cause interference in aircraft.

Vehicles

Never use your device while driving. Place it in a safe place. Position your device within easy reach. Be able to access your device without removing your eyes from the road.

Electronic devices

In some circumstances your device may cause interference with other devices.

Potentially explosive environments

Switch off your device when in any area with a potentially explosive atmosphere, and obey all signs and instructions. Sparks in such areas could cause an explosion or fire resulting in bodily injury or even death.

Pacemakers and other medical devices

Pacemaker manufacturers recommend that a minimum separation of 8 inches be maintained between a wireless device and a pacemaker to avoid potential interference with the pacemaker.

Operation of any radio transmitting equipment, including wireless phones may

Production specification for Retail 3.0 BT Media Player

interference with the functionality of inadequately protected medical devices.

Consult a physician or the manufacturer of the medical device to determine if they are adequately shielded from external RF energy or if you have any questions. Switch off your device in health care facilities when any regulations posted in these areas instruct you to do so.

Operating environment

When connecting to other device, read its user guide for detailed safety instructions. Do not connect incompatible products. Do not place your device in the air bag deployment area. Use the device only in its normal operating positions as explained in the product documentation. Always switch off your device when its use is prohibited or when it may cause interference and danger.

Areas with posted regulations

Switch off your device when any regulations posted in these areas instruct you to do so.
