Standard Power Access Point 6SD Attestation

We, **Tarana Wireless**, attest that this device under FCC ID: **2ABOF-G2BNF356900** complies with device protocol requirements and operation restrictions for **Standard Power Access Point 6SD**.

Device Protocol Attestation Statement:

A. This device will contact an AFC system at least once per day to obtain the latest list of available frequencies and the maximum permissible power the standard power device may operate with on each frequency at the standard power device's location. If the device fails to successfully contact the AFC system during any given day, the standard device may continue to operate until 11:59 p.m. of the following day at which time it will cease operations until it re-establishes contact with the AFC system

and re-verifies its list of available frequencies and associated power levels - 15.407(k)(8)(iv)

B. This device will automatically acquire geolocation and re-register with AFC to obtain frequency and power values after a power cycle.

C. This device relies solely on its internal GNSS module for geographic coordinates and does not utilize an external geolocation source.

We acknowledge that the above referenced device is prohibited for control of or communications with unmanned aircraft systems, including drones.

A handwritten signature in blue ink that reads "Ilkka Niva".
