

## Internal Photos

### OPEN VIEW OF EUT

### VIEW OF BATTERY

A photograph of a green printed circuit board (PCB) with various components and a ruler for scale. The PCB is rectangular with a large circular cutout on the left side. It features several surface-mount components, including a small integrated circuit (IC) in the center, several resistors, and a small component on the right side. The board is populated with numerous surface-mount components, including a central IC, several resistors, and a small component on the right side. The board is placed on a blue textured surface, and a ruler is visible at the bottom for scale. The ruler shows measurements in centimeters, with markings every millimeter and labels every 10 millimeters. The PCB is oriented horizontally, and the ruler is placed below it, indicating its length is approximately 100 millimeters.
