Attn: OET Dept.

Ref: FCC Class II Permissive change for FCC ID: 2ABRU-2564C

Applicant: Guangzhou BDE Technology Inc.

Dear Examiner,

This is to request a Class II Permissive change for FCC ID: 2ABRU-2564C originally granted on August 30, 2022 (date).

The change under this application is to change to install the granted module (FCC ID: 2ABRU-2564C, Granted on 08/30/2022) into a host product and also change the antenna gains. Therefore Conducted Emissions at AC Power Line (150kHz-30MHz), Radiated Emissions which fall in the restricted bands and Radiated Spurious Emissions were fully retested and shown the data in the report.

I attest that the certified device will not be capable of ad-hoc mode operation outside of the grant conditions.

Sincerely,

**(Signature of applicant)**
