

Bluetooth Speaker

Model: QBS630-BOU

User Guide

I. Introduction

Welcome to your new Bluetooth Speaker. We hope you enjoy using it as much as we do.

Before using your product, we strongly encourage you to fully read through this user guide. This guide will help you operate your new wireless speaker with Bluetooth®. Please also familiarize yourself with the Bluetooth functions of your mobile phone and/or other devices. Last, remember to follow the safety guidelines at all times.

For best performance, charge fully before first use.

II. What's Inside

- 1 x Bluetooth Speaker
- 1 x USB Cable (micro USB)
- 1 x 3.5mm line-in cable
- 1 x User Guide

| 3. Decrease volume /
Previous track | 7. Indicator light |
| 4. NFC | 8. Microphone |
| | 9. AUX input |

IV. Usage

A. CHARGING YOUR DEVICE

The Bluetooth Speaker offers convenient charging via a micro USB port. For best sound quality, you must charge the product fully before using it for the first time.

Steps:

1. Find the USB cable included with this product.
2. Connect the micro connector to the speaker's micro USB port.
3. Connect the other end to your computer's USB port. Make sure your computer is turned on. (You may also connect the cable to a USB power adapter for charging with an electrical outlet.)

IMPORTANT: Use only a USB power adapter with a rated output that matches the speaker power input (DC 5V, 500mA).

4. When charging, the indicator light by the power button will turn red.
5. When fully charged, the indicator light will turn off.

B. PAIRING DEVICES

To use your Bluetooth® speaker, you must first pair it with a Bluetooth enabled device, such as a smartphone or a computer. Once paired, the speaker will automatically recognize and connect to the Bluetooth device in the future.

Steps:

1. Make sure the speaker is charged. Turn on the speaker.
2. The indicator light by the power button will flash red and blue rapidly. The speaker is in pairing mode. (If necessary, hold the Play/Call button on top of the speaker until the indicator light starts to flash red and blue).
3. Turn on your Bluetooth device and ensure its Bluetooth function is activated. You will find this option on most devices under Settings or Options.
4. Follow your device's instructions to search for Bluetooth devices. After a few seconds, your Bluetooth device will list the speaker as a discovered device. The speaker ID is "BOUNDLESS S3".
5. Select the Boundless S3 to pair the two devices. If asked for a passcode, enter "0000".
6. A tone will sound and the indicator light will flash blue intermittently. Your Bluetooth enabled device has been successfully connected.

C. PAIRING DEVICES USING NFC

If you have an NFC enabled device, you can take advantage of the Bluetooth speaker's NFC function for easier and quicker pairing. NFC lets you pair devices almost instantaneously by simply tapping them together.

1. Make sure the speaker is charged. Turn on the speaker.
2. The indicator light by the power button will flash red and blue rapidly. The speaker is in pairing mode.
3. Turn on your device and ensure its Bluetooth and NFC

functions are active. You will find these options on most devices under Settings or Options.

4. Briefly hold your device against the NFC logo on the side of the speaker. Accept the request when your device asks if you want to pair with the Bluetooth speaker.
5. A tone will sound and the indicator light will flash blue intermittently. Your Bluetooth enabled device has been successfully connected.

D. PLAYING AUDIO AND TAKING CALLS

Select the application on your Bluetooth device that you want to use with the speaker, and press play from that application.

Once the speaker is playing, you may press the Play/Call button on top of the speaker to pause and resume audio.

To answer an incoming call, press the same Play/Call button. Press again to end the call. The speaker will resume playing.

E. CHANGING SONGS AND ADJUSTING THE VOLUME

To change songs, press the "-" or "+" button once.

To increase or decrease the volume, hold the "-" or "+" button for several seconds.

F. AUX INPUT

In addition to playing audio via Bluetooth, this product also supports AUX input.

To use, connect a 3.5mm line-in cable from the speaker to any device with an audio output (headphone) jack. The speaker will automatically start playing audio from the connected device. To stop using the AUX input, simply disconnect the cable.

V. Safety Guidelines

Please follow the safety guidelines below at all times when operating or caring for your device.

- Listen to music at a proper volume to avoid hurting your hearing and the speakers.
- Do not connect an external amplifier to the AUX input.
- Avoid storage in high temperatures, such as in a hot vehicle or in direct sunlight.
- Do not expose the speaker or any of its supplied parts to rain or other liquids.
- Do not drop or cause undue impact to the speaker.
- Do not modify, repair, or dismantle the product on your own.

VI. Specifications

Model number:	QBS630-BOU
Bluetooth version:	v4.0
Range:	10 m (approx. 33 ft.)
Frequency range:	100 Hz – 18 KHz
Signal-to-noise:	≥ 85 dB
Driver:	40 mm
Sampling frequency:	8 KHz – 48 KHz
Rating power:	RMS 6 W (3 W x 2)
Battery:	3.7V, 600 mAh * 2
Input voltage:	DC 5 V, 800 mA
Playing mode:	Bluetooth/AUX
Size (L x W x H)	6.1 x 0.9 x 2.3 in (156 x 24 x 58 mm)
Weight	9.2 oz (260 g)

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for Class B digital devices, pursuant to Part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

With all the choices out there, thanks for choosing us.
