Attention Letter

We, OnePlus Technology (Shenzhen) Co., Ltd., attest that this device under FCC ID: 2ABZ2-OP23869 complies with device protocol requirements and operational restrictions: for **6CD**

Protocol attestation statement:

1. The device will only associate and connect with a low-power indoor access point, subordinate device or standard access point and never directly connect to other client devices.
2. This device will always initiate transmission under the control of a low power indoor AP or subordinate or standard client except access point for brief communications before joining a network. These quick messages will only occur if the client has detected an indoor AP, subordinate, or standard access point operating on a channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.
3. This device, when associated and connected with a low-power indoor access point, subordinate or standard access point device, will operate at a power lower as advertised by the indoor access point, subordinate, or standard access point (at some point in time testing will be required but FCC will provide advance notice before the requirement takes effect):
 - i. lower or equal to the power advertised by the low-power indoor access point or subordinate and never above the maximum output power allowed by the FCC grant for clients associated with indoor clients or subordinates.
 - ii. lower than 6 dB below the power of the standard access point advertised.
4. Understanding of Statement acknowledging device restrictions: Prohibited for control of or communications with unmanned aircraft systems, including drones.
