

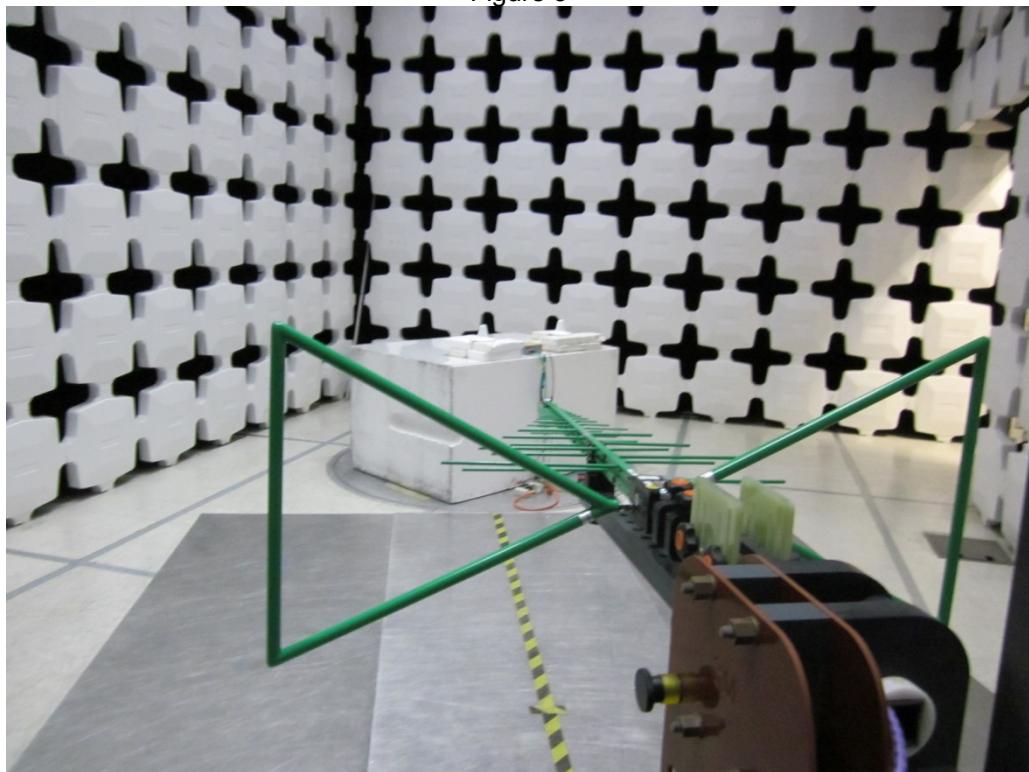

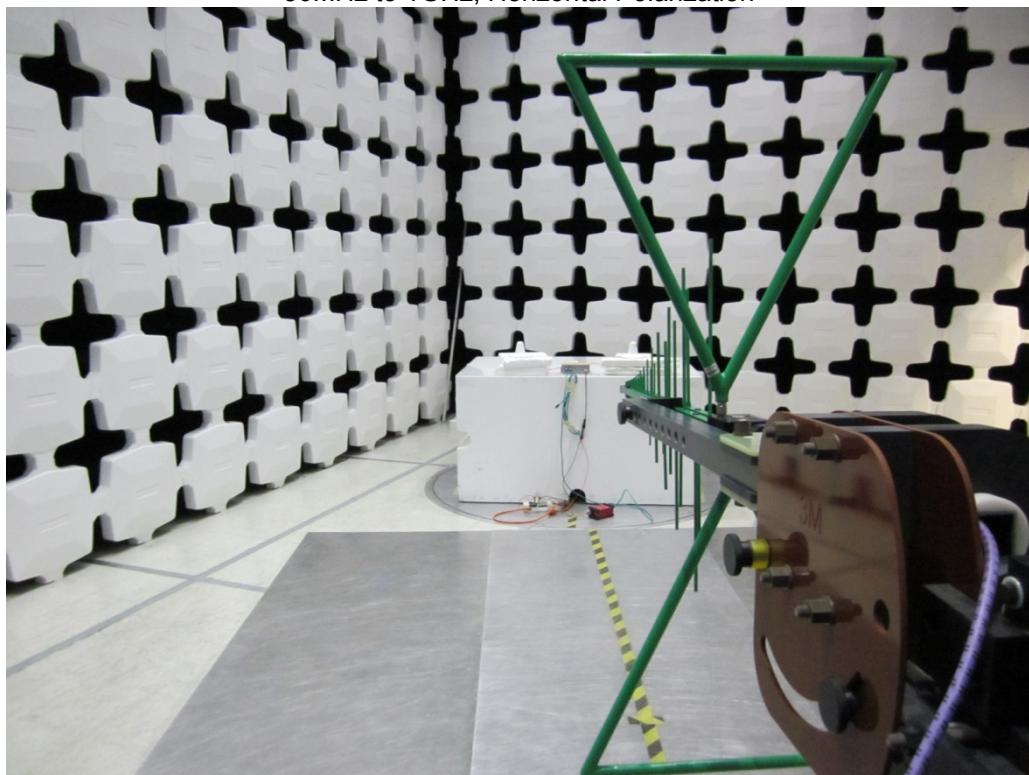

Figure 3

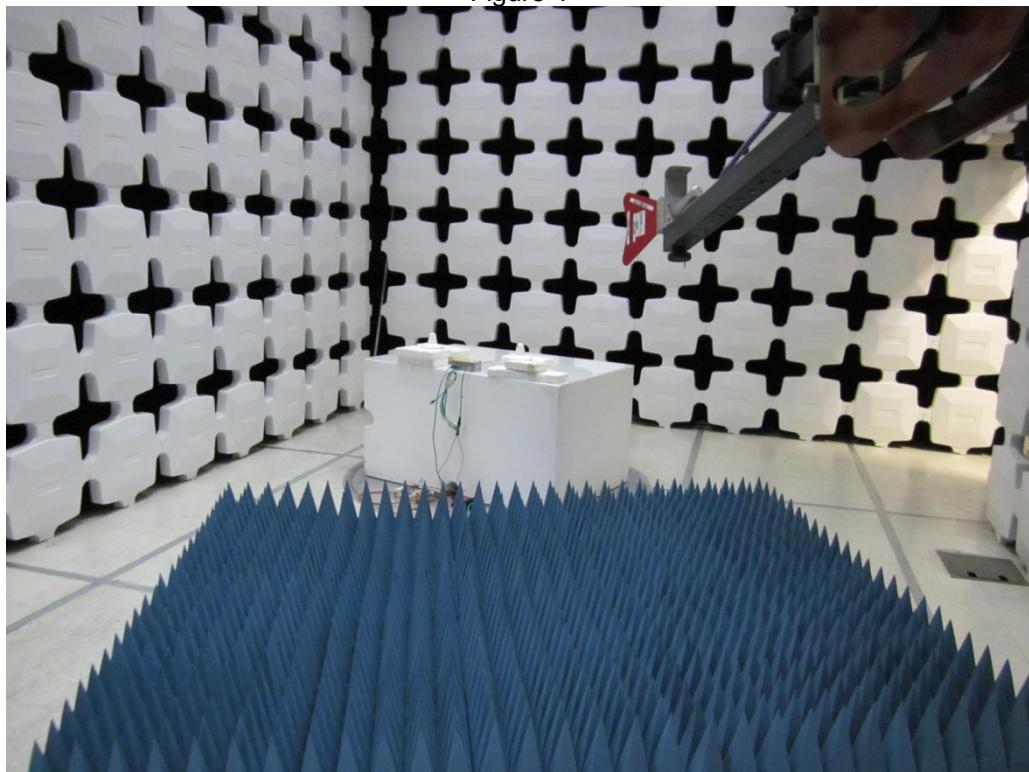

Test Setup for Radiated Emissions, 802.11b and 802.11g Diversity Modes, –  
30MHz to 1GHz, Horizontal Polarization

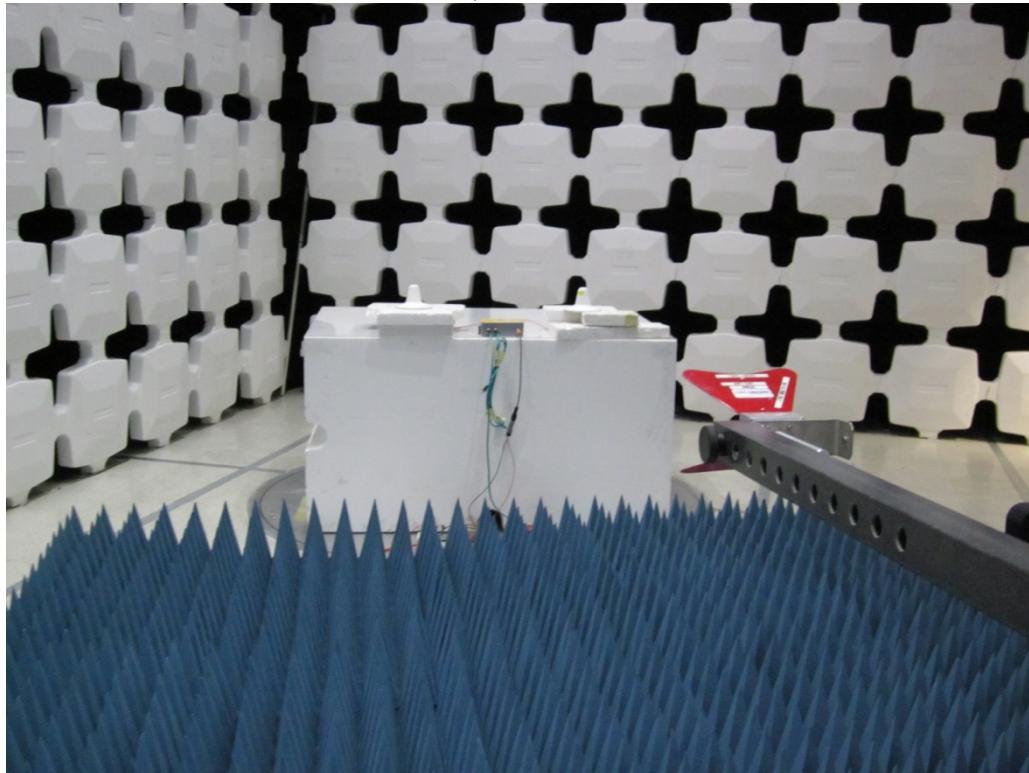

Test Setup for Radiated Emissions, 802.11b and 802.11g Diversity Modes, –  
30MHz to 1GHz, Vertical Polarization

Figure 4

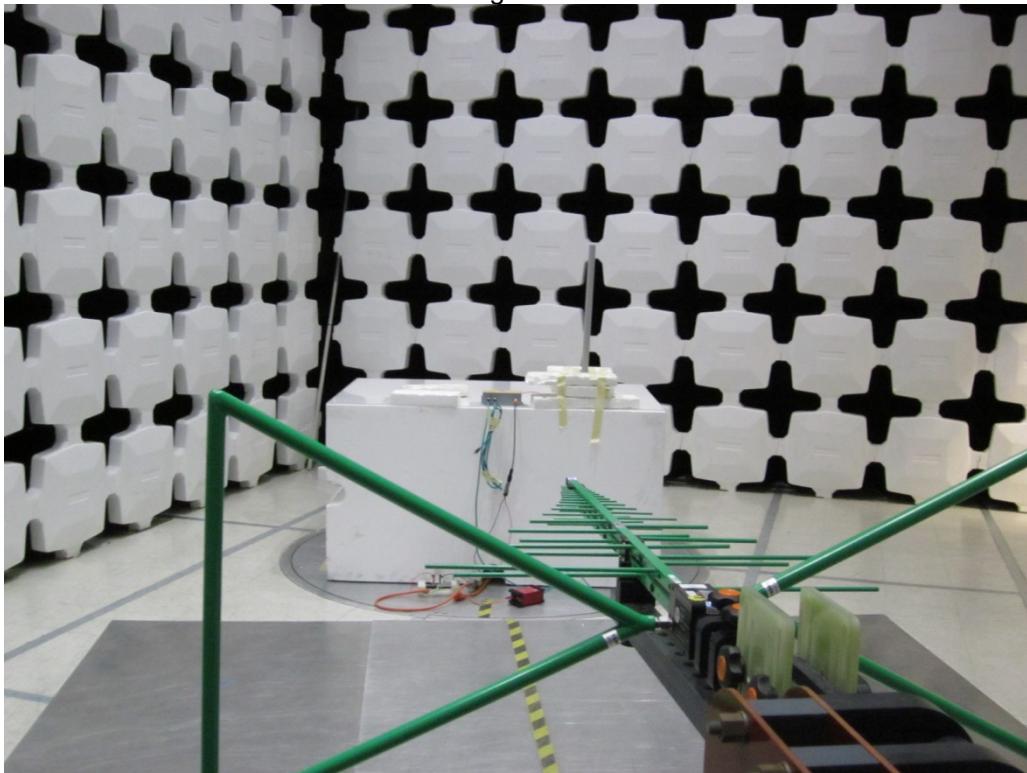

Test Setup for Radiated Emissions, 802.11b and 802.11g Diversity Modes, –  
1GHz to 18GHz, Horizontal Polarization

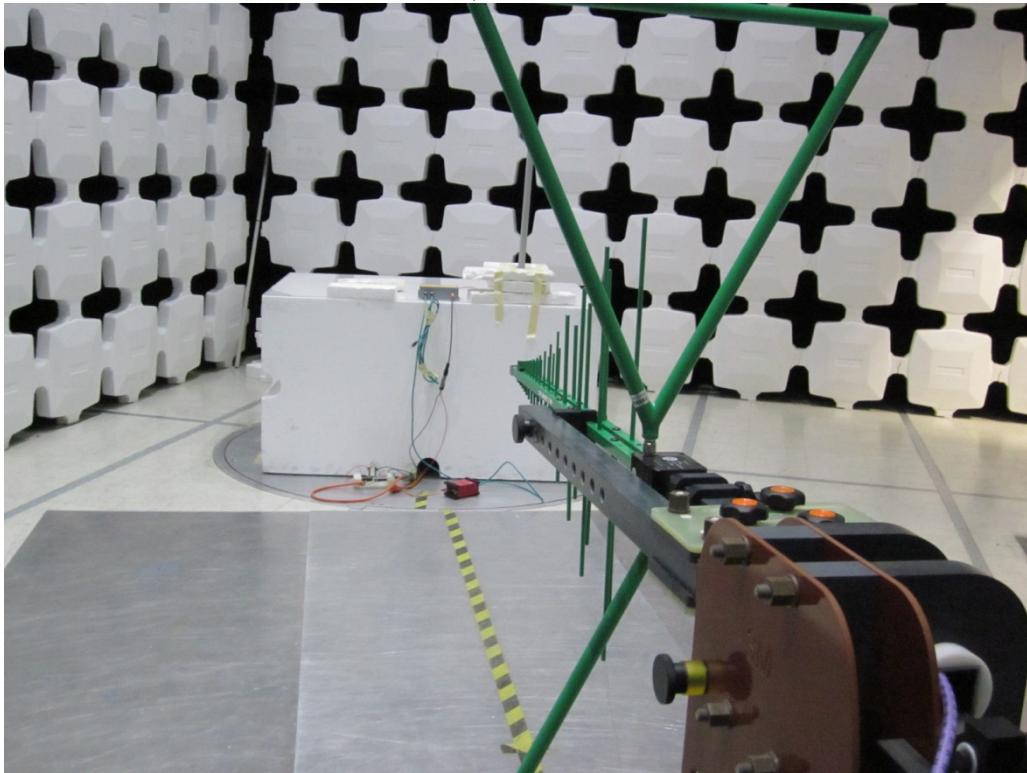

Test Setup for Radiated Emissions, 802.11b and 802.11g Diversity Modes, –  
1GHz to 18GHz, Vertical Polarization

Figure 5

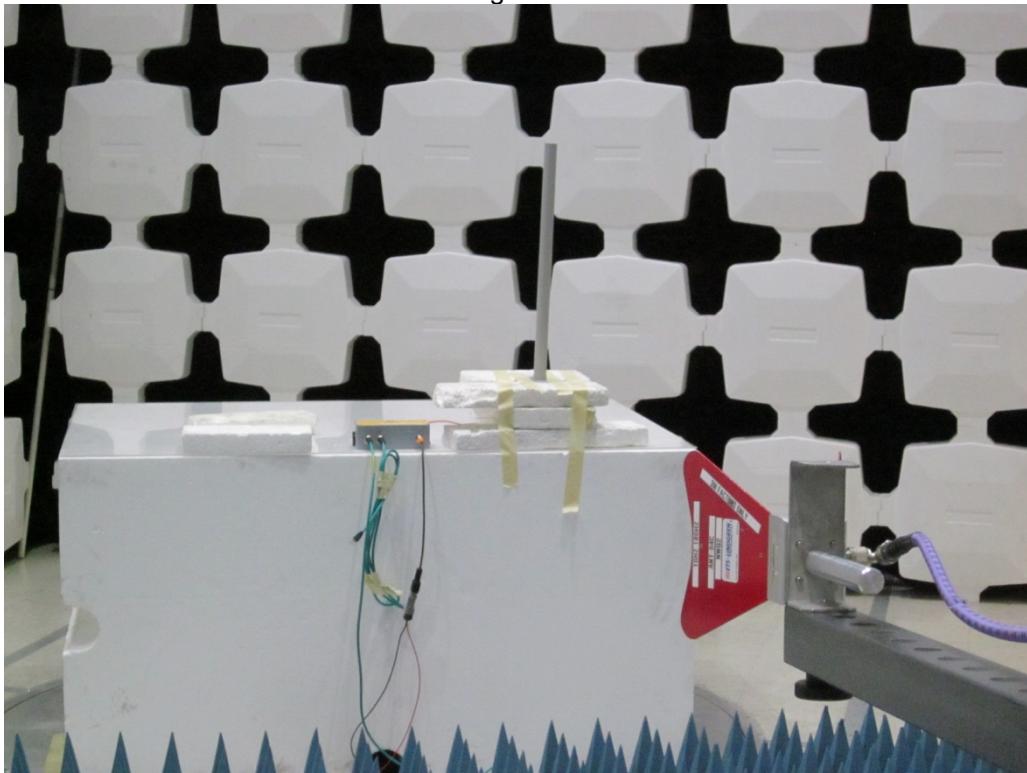

Test Setup for Radiated Emissions, 802.11b and 802.11g Main Modes, –  
30MHz to 1GHz, Horizontal Polarization

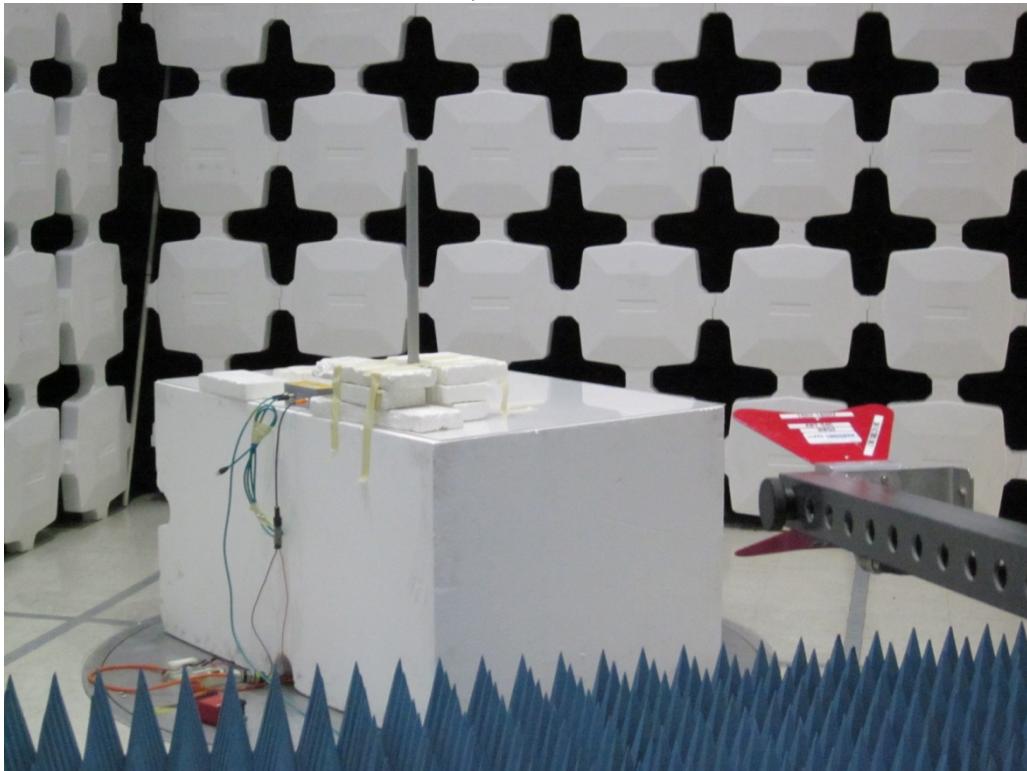

Test Setup for Radiated Emissions, 802.11b and 802.11g Main Modes, –  
30MHz to 1GHz, Vertical Polarization

Figure 6

Test Setup for Radiated Emissions, 802.11b and 802.11g Main Modes, –  
1GHz to 18GHz, Horizontal Polarization

Test Setup for Radiated Emissions, 802.11b and 802.11g Main Modes, –  
1GHz to 18GHz, Vertical Polarization
