

## Technical data

### Battery specification

Battery capacity:	400mAh
Battery voltage:	3.7V
USB input voltage:	5V
USB input current:	700mA

### Speaker specification

Power output:	3W
Frequency range:	20Hz ~ 20kHz
Impedance:	4 ohm

## Operation

### Step 1

Press the power button for 3 seconds.  
Then, it is ready for pairing.

### Step 2

Turn on Bluetooth function from your source devices.  
Search Mr.B and pair with "BB01"  
Pin code is "0000"

### Step 3

While music play, you can pause and play music with the power button.

### Step 4

Press the power button for 3 seconds to turn it off.

### Alert

If the battery is less than 10%, beep sound starts at every 2 minutes.

## Power & Capacity indicator

### When Charging

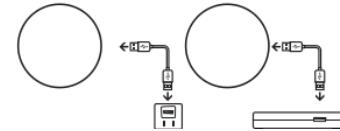

Low battery less than 30% - Red LED  
30% ~ 80% battery - Red & Blue LED together.  
Full charged - LED turns off

### Pairing Mode

Red and Blue LED blinking

### Charge Mr.B

Charge BassB through the USB socket of computer or from your Smart Phone Adaptor.

Please be sure to use adaptor and USB charging cable which are officially certified.

## TIPS :

- In order to maximize your battery capacity, please charge at least 3 hours for the first use.
- If Mr.B is unused for a long time, please make sure to charge Mr.B every 3 months to extend its battery life.
- In order to protect the circuit's safety, please plug USB cord into the USB socket of computer or adaptor first, then plug into the charging socket on Mr.B
- When charging is complete, please unplug the Mr.B's USB end first and then unplug the charging end from computer or adaptor.

## Trouble Shooting

### No Sound

- Check that the source device is turned on.
- Check that Mr.B is powered on.
- If the power indicator is not turned on, please re-charge Mr.B.

## FCC Compliance Statement :

1. This device complies with Part 15 of the FCC Rules. Operation is subject of the following two condition:  
(1) This device may not cause harmful interference  
(2) This device must accept any interference received, including interference that may cause undesired operation.

**CAUTION:**  
2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.  
If this equipment does cause harmful interference to radio or television reception, which can be determined by turning

the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
