

To Whom It May Concern:

Hui Zhou Gaoshengda Technology Co.,LTD

Here by apply for Class II Permission Change to the approved product under FCC ID: 2AC23-DCT1Z, to mobile category when applied in the WIFI Module due to the design of the platform resulting in greater than 20 cm distance to human body.

Radiated emission testing was additionally performed due to the following:

- The product with FCC ID: 2AC23-DCT1Z module was assessed compliant to radiated emission limits per 15.247 and 15.407 in its initial FCC approval.
- The antenna is designed for a higher peak gain in the intentional transmit frequency bands and therefore radiated performance in the intentional frequency bands and the spurious emissions out of bands are needed to be tested.
- power setting of n20 UNII-1 is lower than the original, so retested the power and PSD for n20 UNII-1.

Please kindly review the application documents submitted and grant approval for this Permissive Change application.

Sincerely yours,

---
