

## Bluetooth remote control

### Model Number: RCB98R48BIGTV

#### Product Description

The RCB98R48BIGTV is a BLE5.0 remote control. This remote control can be paired with devices via Bluetooth and after successful pairing, voice control can be performed. Press and hold the [Home] key and [Back] key on the remote control for about 3 seconds to flash the work light, indicating entering pairing mode. When the key operation is not detected, the remote control enters the low-power saving mode, press any key and return to the normal mode.

#### Product Features

- ◆ Complies with BLE5.0
- ◆ Supports 1M/2M bandwidth
- ◆ Low power consumption.
- ◆ Easy to install and configure.
- ◆ ROHS compliant

#### Product Specification

Model	Bluetooth remote control
Product Name	RCB98R48BIGTV
Standard	BLE5.0
Power supply	2 AAA batteries
Modulation Method	GFSK
Frequency Band	2402~2480 MHz
Operating Voltage	2.2V~3.6V
Current Consumption	<15mA
Antenna Type	PCB
Operating Temperature	-10 ~ 60°C ambient temperature
Storage Temperature	-40 ~ 80°C ambient temperature
Humidity	5 to 95 % maximum (non-condensing)

#### NOTICE:

- ◆ Do not splash water or other liquid onto this product, otherwise it may cause damage;
- ◆ Do not put this product near the heat source or direct sunlight, otherwise it may cause deformation or malfunction;
- ◆ please keep this product away from flammable or naked flame;

**FCC Statement:**

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
