V-MODA Premier Limited Warranty

For a period of one (1) year from the date of retail purchase by the original end-use purchaser, V-MODA warrants that this product is free from any defects in manufacturing, materials and workmanship, under the following conditions:

- V-MODA will repair or replace the product within a reasonable period of time and free of charge for one (1) year from the date of retail purchase by the original end-use purchaser
- Product must be purchased from a V-MODA authorized reseller and delivered to you in new condition, in original packaging. This warranty does not cover products purchased open box, sold as-is, sold by private party resale or any other third party purchases from unauthorized resellers
- This Limited Warranty does not cover defects resulting from cosmetic damage, acts of God, misuse, accidents, commercial use, unauthorized alteration or modification of the product, improper connection, improper use or attempted repair by unauthorized distributors or resellers
- This warranty is void if the serial number on product, or the serial number on label(s) has been removed or defaced
- To obtain service under this limited warranty, visit V-MODA.com/Warranty to fill out the online warranty form and obtain further information
- This limited warranty gives you specific legal rights, and you also may have other rights that vary from state to state or country to country. Some places do not allow limitations on implied warranties or the exclusion or limitation of incidental or consequential damages, so the above limitations or exclusions may not apply to you

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) this device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.
