

INSTALLING THE SPEAKERS

1. Carefully, unpack the product.
2. Plug the speaker cable from the speaker to the RIGHT OUTPUT jacks (located in the rear side of the left speaker), and plug the other side to the right speaker INPUT jacks.
3. Plug the audio cable (RCA) to LINE IN jacks (located in the left speaker).
4. The other end 3.5mm jack of the audio cable plug it into your audio player (Audio Output).
5. Plug the power cord to an AC outlet.
6. Turn on the amplifier power switch.
7. Power on the audio device and playback a song. Adjust the volume, the music will be listened in the speakers.
8. The audio system includes controls for bass and treble tones, adjust them in accord to your preferences.

SPECIFICATIONS

Input:	100V~240V	50~60Hz
Impedance:	6 Ohms	
Power output:	50W rms	
Frequency response:	60Hz to 20KHz	

ACCESSORIES

User's Manual

Built-in amplifier
Volume, bass and treble controls
Output: 50W RMS
Impedance: 6 Ohms
Frequency range: 60Hz to 20KHz

Before using your new Audio System, please read this instruction manual to prevent any damage. Put it away in a safe place for future references.

IMPORTANT

Do not try to open the equipment, may cause malfunction.
The warranty is void if you try to open the equipment.
Use a soft, dry cloth to clean the device.

FEATURES

- Built-in amplifier
- Volume, bass and treble controls
- Bass/treble: $\pm 10\text{dB}$
- Output: 50W RMS
- 6 Ohm impedance
- Frequency range: 60Hz-20K Hz
- RCA jack
- 6.5 MIC jack

CONTROLS

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

To assure continued compliance, any changes or modifications not expressly approved by the party.

Responsible for compliance could void the user's authority to operate this equipment. (Example- use only shielded interface cables when connecting to computer or peripheral devices).

This equipment complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
