IR receive

suggested area for magnet

Use the magnet accessories

For a more convienent user experience, use the magnet in
the accessories to stick your MaxStone (first stuck with the magnet
by a double-sided adhesive) onto your camera.
Any area near to the IR receriver of your camera is recommended.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions:
    (1) this device may not cause harmful interference, and
    (2) this device must accept any interference received, including interference
 that may cause undesired operation.

 Changes or modifications to this unit not expressly approved by the party responsible for compliance
could void the user's authority to operate the equipment.
