

Bluetooth Connection: Place the speaker close to (within 10 meters) of your Bluetooth enabled device. If not in Bluetooth mode, short press Mode Button to switch to Bluetooth mode. Enable Bluetooth function on your Bluetooth-enabled smartphone, tablet or media player; navigate to the Bluetooth setting menu, and search for new devices. The Bluetooth name for this speaker is 'SC-2334BT'. Once connected, you can Short press Previous or Next Button to play the previous or next song.
FM Radio Playback: In FM mode, long press the Play/Pause button to complete a frequency auto search. When the auto search is complete, short press Play/Pause one more time to save the stations in the speaker. Then short press the + or - button to choose the channel you want. Then long press the + or - button to adjust the volume you want.
Note: Only MP3 format files are compatible. Maximum size of the USB/ microSD device that can be connected is 32GB.
5

TWS function (Optional, requires two speakers) Place the two speakers (Model: SC-2334BT), you can use them together for a more immersive audio experience.
1. Place the two speakers in the same room and turn them on in Bluetooth mode. Do not connect them to your audio source device at this stage.
2. Long press the 'Play/Pause' button on either speaker. The two speakers will now connect in TWS mode.
3. Enable Bluetooth function on your audio source device like a smartphone or tablet; navigate to the Bluetooth setting menu and search for the Bluetooth name 'SC-2334BT'. In TWS mode, only one Bluetooth name will be displayed.
Note: To disconnect TWS mode, long press the 'Play/Pause' button again.

Cleaning instructions: Always power off the speaker and disconnect from charging before cleaning. Do not submerge the device in water. Use a soft, lint-free microfiber cloth slightly dampened with water. For stubborn stains, apply a small amount of mild soap (non-abrasive) to the cloth. Gently wipe the casing, avoiding speaker grilles and ports.

FCC Warning

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
