USB cable

■Instructions

- 1.Connect to the"audio-out port" on your computer or the earphone jack of other musical devices using the provided mini-jack speaker cable.
- 2.Turn on the speaker by sliding the On/Off switch(located on the bottom of the speaker) to the "on" position.The blue LED indicator should be lit.
- 3.Volume can be controlled by adjusting the volume of your music device or computer.
- 4.Charge the speaker by connecting the provided USB cable to powered USB port on your computer or power source.
- 5.The speaker reaches full charge in about 2-3hours.Depending on volume and the type of music played,each charge can last between 6-8hours.

■ FCC STATEMENT:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device,pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radiofrequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to

radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: —Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. —Consult the dealer or an experienced radio/TV technician for help. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

■ Product's Specifications:

Power output:3W (20HZ-20KHZ)
Speakers: D36mm
SNR:≥85±2dB
Lithium ion battery input: 300Mah (DC5V)
Dimension:D43*H50 (mm)
Material: ABS case+Metal Net-cover
