A line drawing diagram showing a power cable connected to a smartphone on the left and a power adapter on the right. The cable has a USB-A connector on the adapter side and a USB-C connector on the smartphone side. The smartphone screen displays a battery icon with a lightning bolt, indicating it is charging.

Tips:

1. Please check the orientation of the connector and connect it in the correct direction.
2. The built-in lithium polymer battery will discharge naturally so it is suggested that charging it before use.
3. The power adapter and extra charging cable are not included.
