

Authorization Letter of Measurement Data Re-usage

I, the undersigned, authorize the following listed holder of FCC grantees to re-use the measurement data as obtained from the existing certified product for his new application. As per KDB 996369, re-usage of the measurement data, and test report is permissive if the condition of the new application reflecting identical as compared to the certified one. The only part differed between each other is trademark/logo/holder of the responsible party, the control/Radio/I/O/firmware relating to radio parameters remains equally identical to each other, and therefore, measurement result of the previously certified product can be inherent, and continuous to be representative for the purpose to be re-using.

Original FCC ID: 2ACC5-T55
