

B&W Group Ltd.

Dale Road, Worthing, West Sussex BN11 2BH, United Kingdom

Letter of Declaration on LPI Client Operation

Date: 2025/03/12

Federal Communications Commission
Authorization and Evaluation Division
7435 Oakland Mills Road
Columbia MD 21046
USA

FCC ID : 2ACIX-AIOS9

To Whom It May Concern:

We, B&W Group Ltd., attest that this device under FCC ID 2ACIX-AIOS9 complies with device protocol requirements and operational restrictions:

1. Device Protocol Attestation Statement:

- a. The device will only associate and connect with a low-power indoor access point or subordinate device and never directly connect to other client devices.
- b. This device will always initiate transmission under the control of a low-power indoor AP or subordinate. However, there may exist situations where the client may transmit brief messages, prior to being under the control of an AP, to join an AP network. But these brief messages will only occur if the client has detected that an AP or subordinate is operating on a particular channel. These brief messages will have a time-out mechanism such that if it does not receive a response from an AP it will not continually repeat the request.
- c. This device will be lower or equal to the power advertised by the indoor low-power access point or subordinate and never above the maximum output power allowed by the FCC grant.
- d. Contention-Based Protocol, as demonstrated in the test report, is permanently embedded in the module and is not host-dependent.

2. Understanding of Statement acknowledging device restrictions:

- a. This device is prohibited for control of or communications with unmanned aircraft systems, including drones.

Respectfully,

Applicant's company name : B&W Group Ltd.
Applicant's company address : Dale Road, Worthing, West Sussex BN11 2BH, United Kingdom
