#	Name	Description
1	Bluetooth ON/OFF & Play/Pause Button	Press and hold the button to turn on & turn off the Bluetooth. Press the button once quickly to pause sound. Press quickly once again to continue sound.
2	Volume Up/Next Button	Press and hold the button to increase the volume and release the button to finish. Press the button once quickly for the next setting mode.
3	Volume Down/Back Button	Press and hold the button to increase the volume and release the button to finish. Press the button once quickly for the previous setting mode.
4	Bluetooth Indicator Light	When the Bluetooth is turned on, the Bluetooth LED begins flashing blue indicating the system is in Bluetooth pairing mode. The Bluetooth LED turns solid blue and plays a "du-du" sound in the earphone when it has successfully paired with a Bluetooth device.
5	Recharge Indicator Light	The indicator light flashing red when it is charged, and will be solid red after fully charged.

## BLUETOOTH OPERATION

### 1 STREAMING AUDIO WIRELESSLY USING A BLUETOOTH DEVICE

To wirelessly stream audio to this headlamp from a Bluetooth-enabled device:

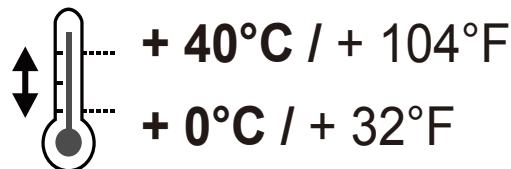

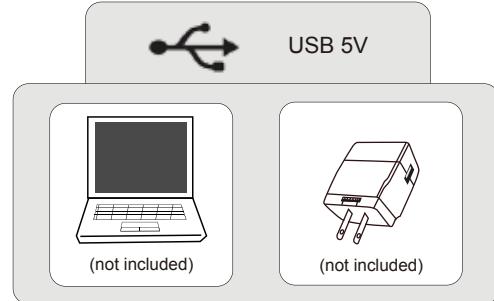

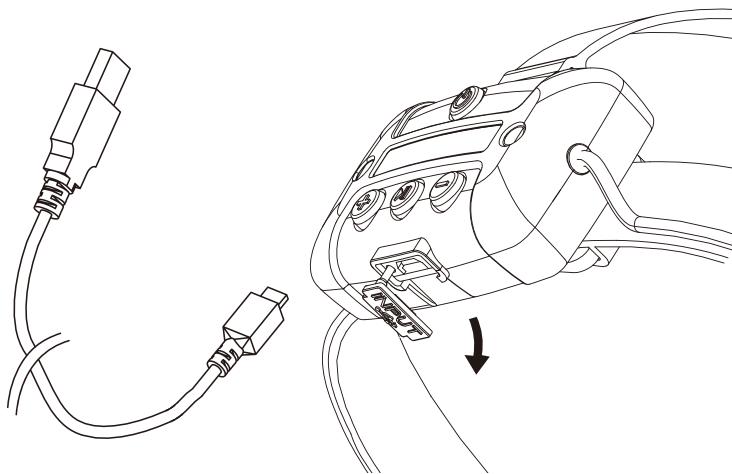

- Press and hold the button (1) to turn on the Bluetooth and the Bluetooth LED (4) will begin flashing blue.
- Place a Bluetooth-capable device in the pairing mode. Use the device's Bluetooth pairing menu to pair with this headlamp (Pairing name: LED HEADLAMP).
- When the Bluetooth LED (4) illuminates blue continually, it is paired with the device and you can stream audio via Bluetooth from your device to the headlamp.

### 2 DISCONNECTING A BLUETOOTH DEVICE

- Press and hold the button (2) & (3) together to disconnect a Bluetooth device.
- To pair this headlamp with a different Bluetooth-enable device, repeat Step 1 with the new device.
- The bluetooth LED will turn off automatically if there is no connecting within about 15 minutes.

**IMPORTANT:** The speaker will play continous "beep" sounds when the power is low. The Bluetooth LED will then turn off automatically. When this occurs, you must charge the Bluetooth headlamp.

### ⚠ CHARGING OPERATION

2000mAh Rechargeable Battery

Remove USB cable from the device once LED changes from solid red to red flashing and close USB door.

\* Note: Charging while using a USB wall adaptor will be faster than a computer USB port.

### ⚠ SAFETY INFORMATION

**CAUTION:** This device complies with Part 15 of the FCC Rules / Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### ⚠ WARNING

1. This headlamp projects a very bright beam of light. For eye protection, do not look directly into the light.
2. This product is powered by a lithium-ion rechargeable battery. Never expose the battery to any liquid or fire.
3. Never disassemble the unit or attempt to remove battery, as that could cause leakage of alkaline solution or other electrolytic substance.
4. Never use or charge the battery if it appears to be leaking, discolored, deformed or abnormal.
5. Dispose of batteries according to local regulations. Please recycle when possible. Do not dispose as household waste or in a fire.
