

GT-NL-SMS-3 | 3681590

WARRANTY:

This product is guaranteed against failure due to factory defects in materials or workmanship for one (1) year from the date of purchase. This warranty is non-transferable and applies only to the original owner. Proof of purchase required for repair or replacement. This warranty does not cover normal wear of parts or damage resulting from any misuse of the product (i.e. using in extreme weather conditions), or alterations made to product.

CAUTION

- This item is dry rated. NEVER submerge this product in water!
- Do not use near hot surfaces.
- Do not dismantle this light. The LED chips are not replaceable.
- Do not remove the lens protecting the LED.
- It is NOT possible to change the LED light source.
- This night light is NOT A TOY.

3-Pack Motion Sensor LED Lights

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

EYES

Do not look directly at LED lights for any length of time.

INSTALLING NIGHT LIGHTS

- Insert batteries into lights
 - Plan light spacing up to 32 feet
- 
- Remove cover of adhesive on all four corners of back of lights and press the unit to desired location.
 - Hold firmly for 30 seconds.

GT-NL-SMS-3 | 3681590 | 3-Pack Motion Sensor LED Lights

USING NIGHT LIGHTS

- Lights will sense motion up to 16 feet away, at a 120-degree motion detection range.
- The first light to sense motion will turn on first, then the other two units will light up.
- If no movement is detected for 20 seconds, lights will go out.

DUSK-TO-DAWN FEATURE

- When the light intensity is lower than 10 lux, the light will turn on when motion is detected.

TROUBLESHOOTING

- Additional units not syncing? Try moving the sensors closer together. Units work best with direct line of sight.
