

*Leading the LED technology wave*

Date: Aug. 11, 2014

To Whom It May Concern:

This letter is to confirm that LED Roadway Lighting Ltd. will build module ASM00115 the same as the ST Microelectronics module listed under FCC ID: S9Nzb32C1 (excepting trivial modifications such as labeling that have no effect on RF characteristics.) The module will be built using the same components and using the same procedures as performed by ST. The agreement from ST authorizing this is dated June 20, 2014. Please refer to FCC ID:S9Nzb32C1 for the block diagram, schematics, operational description and parts list (BOM.)

Thank you,
