Dear FCC:

Some of the material included in this application contains trade secrets and proprietary information not customarily released to the public. Because public disclosure of the material might be harmful to the applicant and provide unjustified benefits to its competitors, it is requested that the following be withheld from public disclosure:

Exhibit Type	File Name
Schematic Diagram	ASM0115-sch.pdf
Internal Photo	ASM0115-int.jpg
Bill of Materials	ASM0115-bom.pdf

We are adding the request for confidentiality of the internal photo since this product is not being sold to the General Public, but only to authorized installers of our product. Additionally, the RF circuitry, that is normally enclosed by the RF shield, is designed to require destructive measures to gain access.

Trade secrets and proprietary information can be held confidential. Therefore, we wish to invoke the act under the provisions of 47CFR, Sections 0.457(d) and 0.459.

Please contact the undersigned if you have any questions or need any further information.

Regards,

Simon Lightbody
