Basic Functional Characteristic of the Player

1. Support to read SD card and USB devices automatically
2. Music Player: Support MP3,WMA, OGG, APE,FLAC, WAV, AAC
3. Picture Browsing Support: Support JPEG, BMP, GIF,TIF,PNG
4. Video Playing Support: Support RM, RMVB, AVI, MKV, WMV, VOB, MOV, FLV, ASF, DAT, MP4, 3GP, MPG, MPEG etc., 720p video no need to convert, can play directly, H.264Hp high bit rate smooth decoding.
5. Text: TXT, JAR
6. Support calendar function
7. Setting Function: Support the display and setting of all functional properties
8. exFAT/TAT64 system support
9. Support multitask operation
10. Support data exchange (between the card and the internal storage)
11. Support exterior audio input for iPhone
12. Support music playing and charging for iPhone
 - a). This Product has a iPhone connecting port; it can use as a outside speaker and a charger
 - b). It is able to control: Volume Up/Down, Previous/Next Song and Play/Pause under iPhone mode.
13. Support USB 2.0,HUB Extension

- a). Support data transmission, full speed of 480Mbps, middle speed of 12 Mbps, Low speed of 1.5Mbps.
Compatible for USB1.1/1.0 as well
- b). Support hot plug, convenience to use
- c). System Support: Window 95/98/2000/2003/ME/XP/Vista/Win7, Mac OS 8.1 or higher (need to download drive for Windows95/98)
- d). Applicable to USB devices, digital cameras, MID, cell phones, digital video recorder, Input devices, etc.
- e). 4 Standard USB 2.0 ports, easy to use
- f). Please use the authorized wires from our company

Support connecting function with PC

System Configuration Requirement:

Operating System: Window 7/Vista/XP/2K/ME/98(drive needed)/Linux9 and higher/Mac OS 10

CPU: Minimum Pentium-133MHz

Memory: Minimum 32MB

Hard Drive: Minimum 100MB

Graphics Card: 640*480 or higher, minimum high color (16 bit)

USB Storage/HUB Function Introduction

I. USB Storage Function

- 1). Plug the WALI-G TF card into the card slot of mainframe (Key Port ⑱)
- 2). Plug in the specialized AC adapter and connect to a AC power source.

Please check whether the USB wire is damaged
6. Silent or low volume:
Please check whether the mute key is pressed on the remote control
Please check whether the volume is turned to minimum on the remote control

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
