# Quick Start Guide

1. Enable Bluetooth on your phone or other mobile device.
2. Use the power slider to turn your SoundFace on.
3. Press and hold the Bluetooth button until you hear the pairing sound.
4. Select your SoundFace in the Bluetooth devices list on your phone or other mobile device.
5. You will hear a confirmation tone and the Bluetooth button will illuminate white when your phone or other mobile device is connected.

Congratulations - you're ready to rock.

If your phone or other mobile device has NFC you can tap here to pair.

To connect using the AUX cable simply plug the cable provided into the headphone jack on your phone or other mobile device and connect to the AUX socket on your SoundFace.

Bluetooth connections take priority over AUX connections if both are active at the same time.

## Basic Controls

Volume up button  
Press to increase volume.  
Press and hold to skip tracks forward.

Volume down button  
Press to reduce volume.  
Press and hold to skip tracks backward.

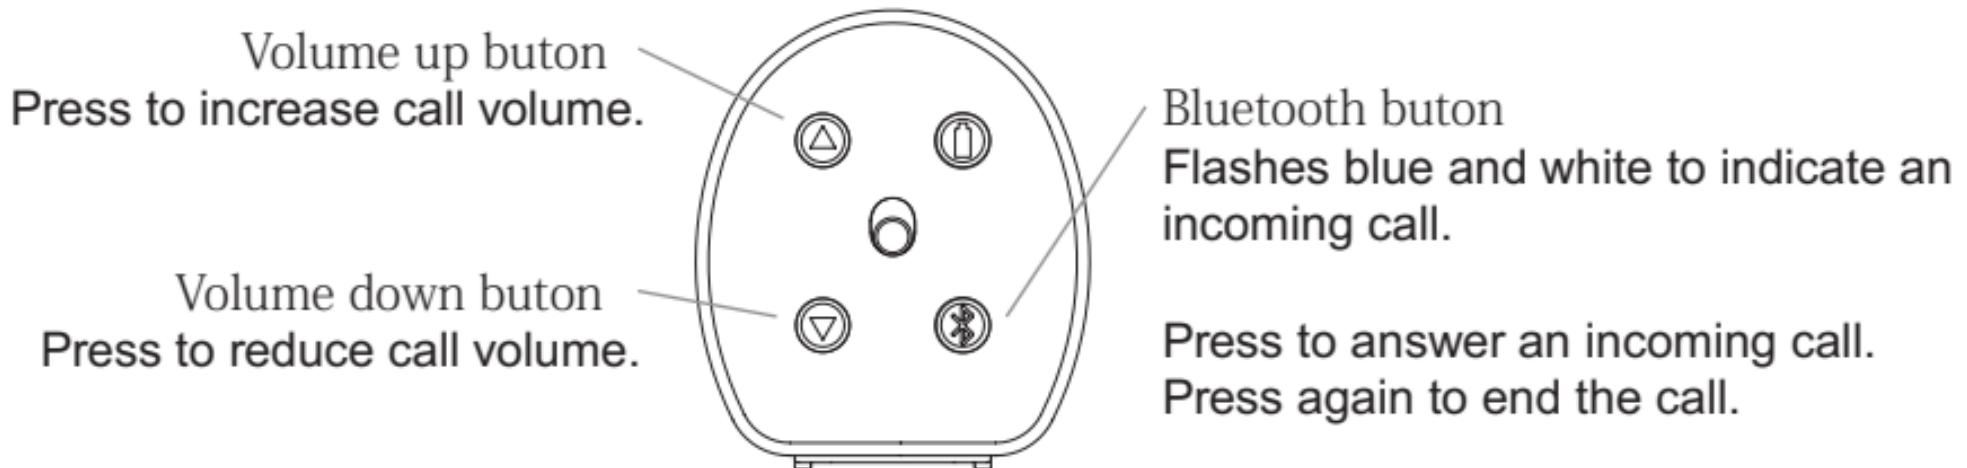

Power slider  
Slide up to power on

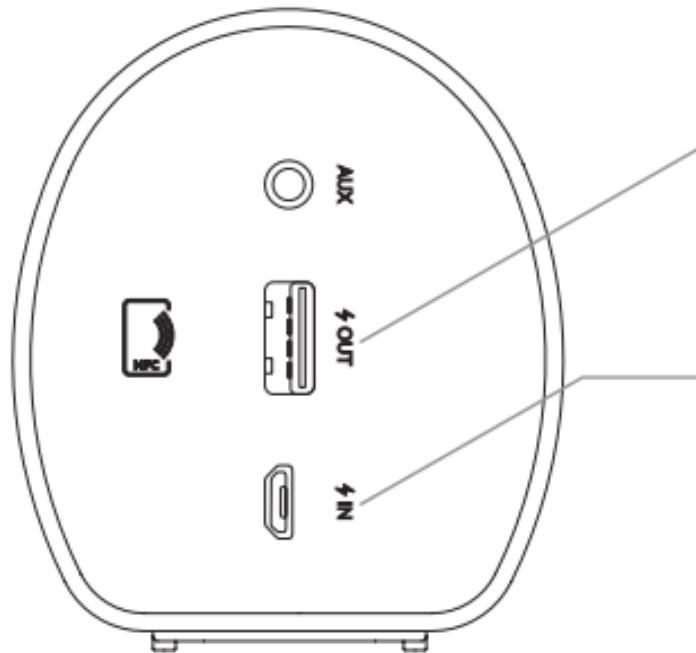

Battery button  
Press to see remaining power.

Bluetooth button  
Press and hold to pair with your phone or mobile device.

## Speakerphone Controls

## Charging

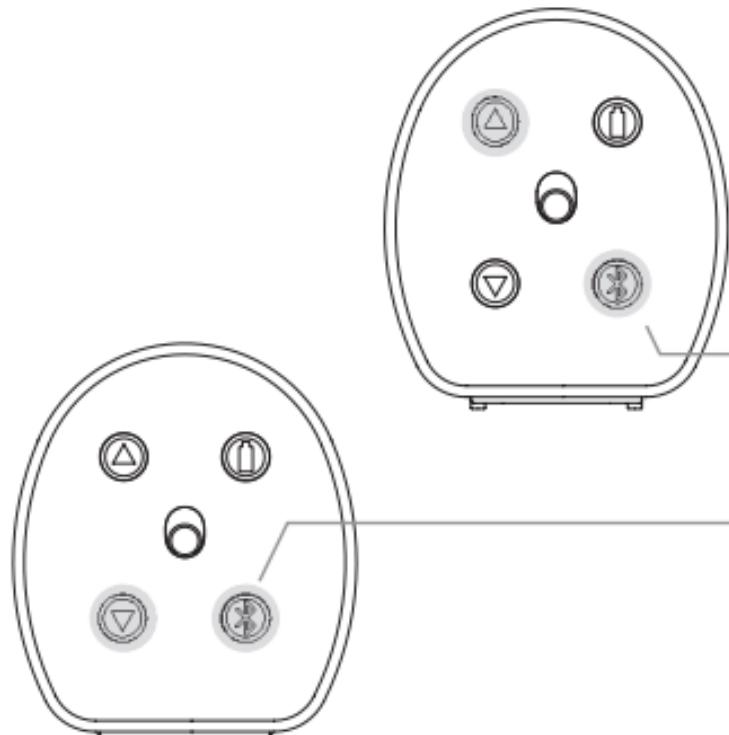

To charge your phone or other mobile device connect the device USB charging cable to the **⚡ OUT** port on the speaker. When the SoundFace speaker is powered on your mobile device will automatically charge.

To charge your SoundFace connect the USB cable provided into the charger and connect the free end of the cable to the **⚡ IN** port on the speaker. Plug the charger socket into a free wall outlet.

USB Port was used for charging the internal battery only

## True Wireless Mode

If you're lucky enough to have two SoundFace speakers you can use True Wireless Mode to link them together for an even better stereo experience.

1. On the speaker that your mobile device is paired to press and hold the Bluetooth and volume up buttons together until you hear the tone.
2. On the second speaker press and hold the Bluetooth and volume down buttons until you hear the tone.

3. The two speakers will search for each other and when they connect both will emit a confirmation tone.

Congratulations - you're ready to rock twice as hard.

If you power on the speakers together next time you use them they will automatically re-establish True Wireless Mode.

If you use one of speakers individually you will need to manually re-establish True Wireless Mode when you want to use them together.

## Safety and Compliance Information

CAUTION: Permanent hearing loss may result from long-term exposure to sound at high volumes. Use as low a volume as possible and avoid prolonged use at excessive volume levels.

Please read the safety guidelines below prior to using the speaker:

### Protecting your hearing:

- Turn the volume to the lowest level when connecting to the speaker and then gradually increase to a comfortable level.
- When adjusting the volume do so slowly and in small increments.
- Keep the volume at as low a level as possible.
- If you experience discomfort or ear pain of any kind, immediately discontinue using the speaker.
- Remember that during continued use at high volume levels your ears may become accustomed to the sound level which may result in permanent hearing damage without any perceivable discomfort.

General product safety:

- Do not use while driving, operating machinery or performing any task that requires your full attention.
- If you have a pacemaker or other electrical medical device contact your physician before using this device.
- The product package contains small items and packaging that may be hazardous to children and may pose a choking or strangulation hazard. Keep the product, accessories and packaging out of reach of children at all times. This product is not a toy.
- Do not attempt to disassemble the product or insert items into the product as this may cause short circuits resulting in electrical shock or fire.
- The product contains no user replaceable parts. Only authorised service engineers may open the product.
- This product is not water proof or water resistant. Exposing the product to rain, moisture or other liquids may damage the product and may result in injury to the user.
- Never mount or stand the product in any vehicle as the product may cause serious injury due to the motion of the vehicle in normal operation or in the event of a collision.
- Do not use in areas where there is the risk of explosion.

- Observe all warnings, signs and instructions regarding the use of electronic devices and/or devices emitting a wireless signal, for example in hospitals or on aircraft.
- If the product is damaged in any way, dropped, exposed to liquid, if the product overheats or if the charger or charging cable are damaged discontinue use immediately.
- Use only official product accessories.
- Dispose of the product according to local regulations for the disposal of electrical items containing lithium-ion batteries.

#### Battery safety:

- Unplug the charger from the device and from the electrical supply when not in use.
- Always keep the product and battery between 0°C and 45°C. Operation outside this range may damage the product or cause harm to the user.
- CAUTION: The battery used in this product may present a risk of fire, explosion, electrical shock or chemical burn if mistreated.
- The battery in this product is not user replaceable and should only be handled by authorised service engineers.
- Only use the charger and charging cable provided with the device, do not charge with other cables or chargers.

- Do not dispose of the batery in household waste as this may result in fre, explosion, electrical shock or chemical burn.
- Dispose of the product and batery according to local regulatons for the disposal of electrical items containing lithiumion bateries.

#### Charger safety:

- Never use a charger or charging cable that is damaged in any way.
- When connectng the charging cable to the product and to the charger ensure that the power is of on both devices.
- Do not pull on the cable to disconnect the charging cable from the device or charger, frmly hold the connector on the cable instead.
- Do not use the charger outside or in wet or damp areas. Do not touch the charger, charging cable, product or electrical socket with wet hands.
- Do not overload electrical circuits or extension sockets.
- Turn of the power before removing the charger from the socket.

FCC:

This device complies with Part 15 of the FCC Rules. Operaton is subject to the following two conditons: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operaton. Changes or modifcatons not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protecton against harmful interference in a residential installaton. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructons, may cause harmful interference to radio communicatons. However, there is no guarantee that interference will not occur in a particular installaton.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment of and on, the user is encouraged to try to correct the interference by one or more of the following measures:  
- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IC:

This device complies with Industry Canada license-exempt RSS standard(s). Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
