Re: Confidentiality Request Regarding FCC Application – ID 2ACYESK-MH60TG-A9

We, Siklu Communications Ltd. ("Siklu"), hereby request that all the information, documents, photographs, diagrams, manuals, materials, procedures and any other information and material submitted by us to the FCC, including but not limited to the items listed below ("Materials"), be withheld from public inspection or disclosure in accordance with Sections 0.457 and 0.459 of the Commission's Rules for FCC for the below provided reasons.

The Materials constitute proprietary information of Siklu and must therefore be treated as confidential. Siklu operates in a highly competitive field, and entities with less advanced solutions or designs could potentially gain an unfair advantage by accessing the Materials, which will be available in the public domain if published by the FCC. As we are incorporating innovative and cutting-edge solutions and designs into our products, it is critical that the Materials submitted to FCC be protected from disclosure to competitors within the industry.

As the FCC records have in-depth information and a very wide distribution, we believe that you can understand our concerns. We regard these Exhibits/Items to be our intellectual property and therefore as confidential information.

These solutions/products or information thereof are not accessible even for our customers or partners unless non-disclosure agreements for particular item(s) have been signed.

For product ID 2ACYESK-MH60TG-A9, we require permanent confidentiality for all applicable exhibits listed below:

- Block diagrams
- Schematic diagrams
- Operational descriptions
- User's manuals
- Internal photographs

which are not released outside of Siklu since service of our products, as in open the unit and repair, is only performed at Siklu warehouse and factory and which are only accessible by our trained partners under NDA. Trained technicians under NDA can only install and configure the unit or decide on replacement.

Short-term confidentiality is only required for External Photos.

Sincerely,

Siklu Communications Ltd.
