

## SH09 Stereo Bluetooth Headset User Manual

### Operating Instructions

#### Power On

When the headset is off, press and hold the Multi-Function Button (MFB) for 2 seconds. The LED indicator will flash slowly in blue. You will hear the word "Hello" from the speaker of the headset. The headset will be paired with the last connected bluetooth device or mobile phone automatically when turned on.

#### Power Off

When the headset is on, press and hold the MFB for 4 seconds. The LED indicator will flash slowly in red. You will hear the word "Goodbye" from the speaker of the headset. The headset will disconnect from your phone devices when turned off.

#### Pairing Mode

When the headset is off, press and hold the MFB for 5 seconds until the LED indicator flashes red and blue in alternating colors. You will hear the word "Pairing" from the speaker of the headset.

Note: If you release the MFB before the headset goes into pairing mode, it will power on and connect with the last paired device. If you want to pair the headset with a new phone device, please power off the headset and enter into pairing mode.

#### Easy Connect Function

If the headset doesn't connect with any phone when it's on, you will need to enter the headset into pairing mode by pressing volume- and volume+ concurrently.

## **Answering Calls**

If a call comes in when listening to music or headset is standing by, press the MFB to answer the incoming call. You will hear the words “Call Answered” from the speaker of the headset. If the music is playing, it will pause automatically during the call. After finishing your call, the music will start playing automatically.

## **Reject Calls**

If a call comes in when listening to music or headset is standing by, press and hold the MFB for 2 seconds to reject the incoming call. You will hear the words “Call Rejected” from the speaker.

## **End Calls**

Press the MFB to terminate when you finished your call, you will hear the words “Call Terminated”.

## **Volume**

To adjust the volume when talking on the phone, press the volume+ or volume- to make volume go up or down. When you reach the max/min volume, you will hear a warning tone.

## **Last Number Redial**

When listening to music or headset is standing by, double click the MFB to redial the last number. You will hear the words “Last Number Redial” from the speaker of the headset. If you are listening to music, it will pause automatically during the call.

## **Mute**

When talking on the phone, press and hold volume+ or volume- for 2 seconds to mute your microphone. You will hear the caller, but the caller will not to hear you.

Note: There will be a warning tone every 3 seconds, reminding you that you are in mute mode.

## **Quit Mute**

Hold volume+ or volume- for 2 seconds to exit mute mode.

## **Switching Between Your Mobile Phone and Headset**

When talking on the phone, double-click the MFB to switch the voice from your headset to your mobile phone. By double clicking the MFB again, the voice will switch back to the headset. You will hear the words “Transfer Audio” from the speaker of the headset.

## **Reconnect**

When the headset is disconnected from your mobile phone, you will hear the words “Your Device is Disconnected”. If you press the MFB, it will reconnect. You will hear the words “Your Device is Connected” from the speaker of the headset.

Note: Some devices may have a prompt screen, that will ask you if you would like to pair your device.

### **Voice-Command Dial**

If your mobile phones supports this function, press and hold MFB for 2 seconds to activate voice command. You will hear “voice dial” from the speaker of the headset. By re-pressing and re-holding MFB for 2 seconds during the voice dial mode, voice dial will be canceled.

Note: Please refer to the manual of your mobile phone for voice-command dial support.

### **Pause and Restart Music**

When listening to music, click MFB to pause music and click MFB again to restart music.

### **Play Previous Song**

Press volume- for 2 seconds to play previous song.

### **Play Next Song**

Press volume+ for 2 seconds to play next song.

### **Connect with 2 Mobile Phones**

- A. First disconnect the Bluetooth device from your phone if it is already connected.
- B. Press volume+ and volume- concurrently to put the headset in pairing mode.
- C. Turn on and search Bluetooth device on your second phone until your find “SH09” and select to begin pairing.
- D. Please pair again with your first mobile phone device.
- E. Now you should have two mobile phones connected with the headset.

### **Transfer Calls**

When you're talking on the phone and receive another incoming call, press the MFB for 2 seconds to reject the incoming call. If you click V+ and V- concurrently, you will receive the incoming call. Your first call will be placed on hold. When you click V+ and V- concurrently again, you will switch back to your first call. You should hear a beep. During this time your second call will be placed on hold. You can also end the call by clicking the MFB.

Note: This operation requires that your mobile phone supports the call waiting feature.
