

Letter for Label Proposal

FCC ID: 2AD3G-X4009

Date: Mar. 04, 2015

Equipment Authorization Division
Office of Engineering and Technology
Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

Dear Sirs:

United Telelinks(Bangalore) Limited requests acceptance of the labeling proposal described below for transceivers bearing FCC identifier 2AD3G-X4009.

The subject transceivers are compact handheld models as shown in figure 1, authorized under FCC Part 22/24 for mobile services.

Figure 1.

Because the majority of the transceiver housing is composed of display, speaker, operating controls, and a removable battery pack, there is extremely limited space available to attach the required label carrying the FCC identifier. Attaching the label to the battery pack is not acceptable because the battery pack is a removable item. For this reason, we propose placing the label carrying the FCC identifier inside the battery compartment as shown in figure 2.

United Telelinks(Bangalore) Limited

NO 39/13, Appareddy palya Main Road, off 7th Main, HAL2nd stage, Indiranagar 2nd stage, Bangalore, India -560038

Tel: 9731017929 Fax: 9731017929

Proposed Label Location on EUT

Figure 2.

The consumer packaging for these models includes the battery pack as a separate item, NOT installed on the radio. As such, the FCC identifier will be readily visible to the user before the battery pack is installed and whenever the battery pack is removed or replaced. In this location, the label will also be protected from physical abuse and remain readable for the anticipated life of the device.

The consumer packaging for these models is a "gift box" which does not allow the transceiver to be seen at time of purchase. In order to meet the requirements of 47CFR Part 2.925 (d), We will add the FCC identifier "2AD3G-X4009" to the outside of the consumer "gift box" packaging.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Basappa Muttur", is written over a horizontal line.

BASAPPA MUTTUR/manager
