Operation Instructions for BH02 Stereo Headset

Introduction to function:

With novel headset design, this product adopts renowned latest stereo Bluetooth chip, which guarantees high fidelity, stable performance and excellent communication effect. This product supports Bluetooth V3.0, Bluetooth A2DP and answer phone call.

Introduction to functional keys:

1.Key [Volume Up]: Bluetooth music play status; pressing it shortly to play next song; if pressing and holding it, the volume will increase fast.
2.Key [Volume Down]: Bluetooth music play status; pressing it shortly to play previous song; if pressing and holding it, the volume will decrease fast.
3.Slide Power Switch: move the switch to position ON to enter the status of pairing, and red & blue lights will flash; move switch to OFF to shut down the headset.
4.Call: pressing and holding it for 5 sec to clear originally matched equipment and enter the matching status again, and red & blue lights will flash; when playing music, pressing it shortly to play/pause; when a call comes in, pressing it shortly to answer the phone or pressing and holding it 2 sec to refuse the call; when answering a call, pressing and holding it for 2 sec to switch between the modes of mobile phone and Bluetooth earphone; redial by pressing the multi-function key for two times.
5.Under matching status, if failing to connect within 3 min, the earphone will withdraw the matching status automatically; during matching, red & blue lights will flash fast alternately; under non connection status, the blue light will flash once every 2.5 sec; after connecting with mobile phone, the blue light will flash two times every 5 sec; during charging, Bluetooth will reset and shut down, and the switch shall be moved to OFF and then ON to connect with previous matched equipment; during charging, the red light will always light until charging is completed.

Product operation:

For the first time of use, the switch shall be moved to ON to enter matching status, and red & blue lights will flash fast; open your Bluetooth equipment (such as mobile phone) to search until finding the name BH02 for matching; if password is required, input 0000, confirm it, and this product will be connected successfully; after connection, the blue light will flash two times every 5 sec. To play music, press the play key shortly, or open the music player of Bluetooth equipment. When a call comes in, press the answering key shortly to answer it; if pressing and hold it, the call will be refused.

Product performance parameters:

1- Charging voltage:	MICRO USB 5V
2-Working current:	25-30mA
3- Bluetooth Working range:	10M
4-Output power (audio) :	2x20mW
5-Frequency range:	2.402-2.480GHz
6- Distortion factor:	≤1%
7-Frequency response:	20Hz-20KHz
8-Working Time:	Music state 7 hrs
9-SNR:	S/N≥95
10- Charging Time:	2-3h
11-Bluetooth name:	BH02

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and
(2) this device must accept any interference received,
including interference that may cause undesired operation.
