

**EXHIBIT 2****Section 2.911 (e) CERTIFICATION OF TECHNICAL TEST DATA**

To Whom it may Concern:

This is to certify that the Nokia **AirScale Micro RRH 3.5GHz 4T/4R 20W (AZQC)** with FCC ID: **2AD8UAZQCRH1**, manufactured by Nokia is a LTE/5G-NR Base transceiver station RRH 3.5 GHz with 4 power amplifiers. The **AZQC** is a 5G-NR transceiver and operates in the Part 96Z Citizens Broadband Radio Service (CBRS) spectrum.

R.J. Johnson  
Technical Manager  
Nokia – Global Product Compliance  
Laboratory

**Section 2.911 (e) QUALIFICATION OF ENGINEERS**

Steve Gordon is a Member of Technical Staff at Nokia. He received a BSET degree in 2001 from The New Jersey Institute of Technology, Newark College of Engineering. He has more than 19 years of experience in the EMC regulatory industry. He has developed test plans and conducted RF tests including the required FCC tests for radio equipment certification. Steve is the Lead engineer for the FCC filing of the subject product at Nokia.

**Section 2.911(d) CERTIFICATION OF TECHNICAL TEST DATA**

I hereby certify that the technical test data are the results of tests supervised by me.

Steve Gordon  
Member of Technical Staff
