Re: FCC ID: 2ADCB-CRM1

To Whom It May Concern:

The following application is submitted on behalf of our client, Acuity Brands Lighting, Inc., for evaluation of their models BRM1-1 and BRM1-2 for single modular approval certification under FCC Part 15.247.

The BRM1 module provides indoor geo-location information via Bluetooth LE (2402-2480MHz). The module serves as a single beacon to provide 1-way communication with a user's device to define their physical location.

Two variants of the BRM1 were tested. The BRM1-1 utilizes the Chip Antenna (Internal Antenna) during normal operation. The BRM1-2 utilizes the U.FL port for the External Antenna.

The BRM1-1 and BRM1-2 were tested in full to the requirements of the aforementioned rules and was found to be in compliance.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Sam Wismer".
