November 19, 2018

Dear Sir/ Madam,

Deere & Company allows our customer, JLG, to use our original FCC ID and ISED ID to obtain their own certifications.

Original FCC ID 2AAFX-PH85234863 dated 06/05/2018
Original ISED ID 11137A-PH85234863

JLG may use the Deere & Company test results.

The JLG product will not differ from the Deere & Company product except in label, power supply voltage, and I/O. The differences do not change any of the characteristics on which the tests were performed.

Yours sincerely,

Orrin West

Name: Orrin West

Title: Systems Engineer/ Acting as agent for JLG
