Hello,

As per §§ 0.457(d) and 0.459 of FCC Rules, ODG requests the FCC, as the authority, remove the documentation below from public access. This application is for Long Term Confidentiality. The documents are currently publicly available. This information is a trade secret. These are ODG confidential documents. Failure to do so will result in great financial hardship to ODG as these documents can help the competition reverse engineer our product. Access to them by our competitors will cause great harm. Internal Photos should be marked for short term confidentiality.
