Dual-core 1.5G CPU

Equipped with the operating system to give Android 4.2 the MBO

1GB DDR3 / 8GB Flash

Compliance with OpenGL ES 2.0 standard 3D circular acceleration

Includes: set-top boxes host. Remote control, power adapter, HD output lines, promotional materials

Performance: Dual USB2.0 interface. Support for remote control / external mouse / keyboard / mouse to fly multiple control methods, support local high-definition video playback, support 2D / 3D games, support multi-language operating interface, support TF card expansion up to 32G, support limited / or wireless Internet access mode, support for HD output / composite output, support for browser, you can easily browse network resources, support DLNA / MIRCAS multi-screen interactive features.

All technical advice to the real machine performance prevail, MoonBox reserves the final interpretation

Model: MoonBox III

Color: Black

Product name: MoonBox streaming player

Power supply: DC5V-2A

Product Size: 100mm\*100mm\*24mm

Product Weight: 0.13kg

Packing size: 168mm\*114mm\*84mm

G.W: 0.5kg

MADE IN CHINA

## **FCC Caution.**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not

occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**RF warning:**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
