

## User Manual

### Charging Your Bluetooth Tablet Keyboard

Note: Please fully charge the Bluetooth Tablet Keyboard prior to use. It takes approximately 2 hours to charge an empty battery. Make sure your Bluetooth Tablet Keyboard is turned OFF.

**CHARGING VIA WALL CHARGER:** Connect one end of the cable to the Micro USB port and the other end to the wall charger.

**CHARGING VIA COMPUTER:** Connect one end of the cable to the Micro USB port and the other end to the computer's USB port.

While the Bluetooth Keyboard is charging, the charging indicator will be red. Once fully charged, the charging indicator will turn off.

*Tip: To extend the life of your battery between charges, turn off the Bluetooth function whenever you are not using it. You may also be required to turn off Bluetooth function in some locations. Bluetooth function will turn off when you switch to Airplane mode.*

### Connecting to Bluetooth/Pairing

Follow the below instructions to "pair" your devices for initial use. Once you have paired your tablet (device), you do not need to repeat the pairing process, the keyboard will automatically link to the tablet (device) when both devices are switched on.

If using your Bluetooth keyboard with another device, you must perform the pairing process again.

**FCC Caution:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

**FCC RF Radiation Exposure Statement:**

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End users must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be collocated or operating in conjunction with any other antenna or transmitter.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
