BLUETOOTH MUSIC PLAY AND PHONE CALL

Bluetooth

Bluetooth

Devices

LN-2060

After successful connection, start music play on the Bluetooth device. You can listen to music from LN-2060. The music streaming may be interrupted by obstacles between the device and LN-2060, such as wall, metallic casing that covers the device, or other devices nearby that operate in the same frequency.

Click Bluetooth icon on calling interface to transfer your ongoing calls to LN-2060, speak directly to MIC on speaker control panel, and the incoming conversation voice will be amplified by LN-2060, which is louder and clearer.
