

Function:

1. Wireless Charging Surface

2. Magnetic Surface

3. On/off button

4. USB-A output

5. Type-C input/output

6. LED display

7. LED indicator

8. Foldable stand

What's include:

1 x Wireless Charging power bank

1x Type-C charging cable

Tech Specs.

Battery capacity: 10000mAh/3.7V/37Wh

Type-C Input: 5V/3A, 9V/2A, 12V/1.5A

Type-C Output: 5V/3A, 9V/2.2A, 12V/1.67A

USB-A Output: 5V/3A, 9V/2.2A, 10V-2.25A/12V/1.67A

Wireless Output: 5W/7.5W/10W/15W

Instructions:

1. Charging the Power bank:

- . Charge the power bank fully before usage.
- Connect the integrated Type-C cable to a quick charge AC adapter . Or connect to your own specific device USB cable to the Type-C port.

Note: To achieve better charge performance, quick-charge power adapter is recommended. (20W at least, not included).

- If your wireless charging compatible device contains magnets, it will attach to the magnetic surface of the stand for better alignment to secure wireless charging.
- This item is also compatible with other items, the magnetic function just won't work.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.

- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
