MAKE & ANSWER A CALL
1. From the Home screen, touch 2. Touch to show the dial pad 3. Dial a number, then touch to initiate the call.
Answer a call. Drag to the right. Decline a call. Drag to the left

VOLUME CONTROL WHEN CALLING
Volume key is at the left side of the phone. During a conversation, you can press the volume key to tune the sound volume

SEND A TEXT
1. From the Home screen, touch 2. Tap Start Chat 3. Touch the "To" field, then enter a recipient. 4. Touch the Text message field to enter the message content 5. Touch Send the message

ADDING EMAIL ACCOUNTS
The first time you open Gmail, you will be prompted to set up an email account. You can configure Gmail or other email account to send and receive email. To add an email account:
1. Tap the Gmail icon. In your account interface, tap Add an email address 2. Input email address and password, follow the set up steps to finish adding an email account

Multimedia
You can watch video files saved in the phone storage/SD card through the Photos. In the main menu, touch the Photos icon to open the list of files. Touch the video to play.

Music
When you copy music to phone storage/SD card, the YT Music searches for music files and builds a catalog of your music, based on information about each file that is stored in the file itself

Main screen
Main screen can be placed on the most commonly used applications, you can also display daily information such as the time, the weather (need third-party applications), date, etc

WLAN
To browse the web, you need switch on Data connection. If there is Wi-Fi around, you can switch on WLAN to use it. Some may need password

Camera
Your camera pictures and videos can be stored in handset or SD card. You can copy pictures and videos from the handset or SD card to a PC

Notification
Notification icons inform you of new messages and events. When you receive a notification, its icon appears in the status bar, along with a summary that appears only briefly

Photos
You can use Photos to view pictures that you've taken with Camera, downloaded, or copied to your SD card or phone storage. You can perform basic editing tasks on pictures and set them as your wallpaper or contact picture. You can also share your pictures with friends, via email or Messaging, or by uploading them to the Photos and YouTube web sites.

SPECIFICATIONS

Model JK68
OS Powered by Android™ 14
CPU Octa Core Processor
RAM 4GB
ROM 32GB
Battery 3800mAh

Display

Screen Size 6.745" HD+ SCREEN

Resolution 720*1600 Pixels

Touch Capacitive multi-touch

Cameras

ANSI C63.19:2019 HAC RF Categories

The ANSI Standard presents performance requirements for acceptable interoperability of hearing with wireless communications devices. When these parameters are met, a hearing aid operates acceptably in close proximity to a wireless communications device.

WD RF audio Interference level categories in logarithmic units

Emission categories	<960MHz Limits for E-field emissions	>960MHz Limits for E-field emissions
M1	50 to 55 dB (V/m)	40 to 45 dB (V/m)
M2	45 to 50 dB (V/m)	35 to 40 dB (V/m)
M3	40 to 45 dB (V/m)	30 to 35 dB (V/m)
M4	< 40 dB (V/m)	< 30 dB (V/m)

ANSI C63.19:2019 HAC T-coil Categories

Category	Telephone parameters WD signal quality [(signal + noise) to -noise ratio in decibels]
Category T1	0 dB to 10 dB
Category T2	10 dB to 20 dB
Category T3	20 dB to 30 dB
Category T4	> 30 dB

FCC Hearing Aid Compatibility (HAC) Regulations for Wireless Devices

The U.S. Federal Communications Commission (FCC) has established requirements for digital wireless mobile devices to be compatible with hearing aids and other assistive hearing devices. When individuals employing some assistive hearing devices (hearing aids and cochlear implants) use wireless mobile devices, they may detect a buzzing, humming, or whining noise. Some hearing devices are more immune than others to this interference noise, and mobile devices also vary in the amount of interference they generate.
