

## QUICK START GUIDE

### BASIC INSTRUCTIONS

#### Power Up (boot) for the first time.

- Remove right side back panel door to access power connector port. Connect included power cord to device and then to an outlet.
- Device will automatically boot/start up once connected to power through the provided adapter/cord. (If device does not automatically boot, follow the procedures in the section for "Using the internal power button.")

#### Using the internal power button (boot / wake / sleep / shutdown).

Hold the tablet in landscape orientation with the camera on top. The internal power button can be accessed with the included hex key (or similar object) through the small round hole on the bottom edge of the tablet.

##### *To Boot:*

- Press and hold the internal power button for 2-3 seconds until the Intel logo is displayed.

##### *To Wake/Sleep* (if the tablet is booted, but the screen has gone to sleep):

- Press and release the internal power button. The screen will reactivate.

##### *To Shutdown:*

- Press and hold the internal power button for 2-3 seconds until the power off options menu is displayed. Tap the desired option on the screen.

#### Prevent screen from going to sleep.

##### Step 1:

- Go to SETTINGS → DISPLAY. On the right side of the screen, tap "Sleep."
- Choose the desired time out option. (The screen will go blank after the chosen period of time, if the device is not charging (see step two below).

##### Step 2:

- Go to SETTINGS → DEVELOPER OPTIONS. In the upper right corner of the screen, switch the toggle button to the "On" position. Acknowledge the message by tapping "OK."
- Tap the checkbox for the "Stay awake" option to enable it. The device will not go to sleep while plugged in and charging.

#### Connect to your wireless network.

- Go to SETTINGS → Wi-Fi.
- Switch the toggle button to the "On" position.
- From the available selections on the right side of the display, choose your local wireless network. If the network is secured, enter the necessary password.

#### Connect peripheral devices.

- The **PROPORT** allows you to easily connect peripherals through one of its many available I/O ports. To access the various ports, you will need to remove one or both of the back panels.
  - The left side provides full-size HDMI, 2 full-size USB, and a GPIO port.
  - The right side provides 2 full-size USB, micro-USB, audio/headphone jack, power connector, and MicroSD card slot.
- Follow the device manufacturer's recommended setup for your peripheral device.

#### Get Support.

- If you need assistance with the **PROPORT** tablet, scan the QR code to access our support website. Or contact AD Technologies at [support@applieddevicetechnologies.com](mailto:support@applieddevicetechnologies.com). Please note that we do not provide software support for applications. When you contact us, please have the Device Serial Number available (support will not be provided without a valid serial number).

### COMPUTER TABLET HARDWARE LIMITED WARRANTY

## Product Warranty

Applied Device Technologies (ADT) provides a warranty to the original purchaser of a new Product against defects in materials and workmanship for a period of one year. If a Product covered by this warranty is determined to be defective within the warranty period, ADT will either repair or replace the Product at its sole option and discretion.

ADT's one-year limited warranty only covers defects in materials and workmanship. This warranty does not cover, for example: cosmetic damage, normal wear and tear, improper operation, improper voltage supply or power surges, signal issues, damages from shipping, acts of God, any type of customer misuse, modifications or adjustments, as well as installation and set-up issues or any repairs attempted by anyone other than by ADT. Products with unreadable or removed serial numbers, or requiring routine maintenance are not covered. This one year limited warranty does not cover Products sold "AS IS", "FACTORY RECERTIFIED", or by a non-authorized reseller.

## Type of Service

To obtain warranty service, contact ADT Technical Support at the contact options provided below. PRE-AUTHORIZATION MUST BE OBTAINED BEFORE SENDING ANY PRODUCT TO ADT. Product serial number is required to determine that a Product is within the warranty period.

Defective Products must be sent to ADT to obtain warranty service. ADT is not responsible for transportation or shipping costs to ADT, but ADT will cover return shipping to the customer. PREAUTHORIZATION IS REQUIRED BEFORE SENDING ANY PRODUCT TO ADT FOR WARRANTY SERVICE. Product returns to ADT must utilize either the original box and shipping materials or packaging that affords an equal degree of protection.

## Parts and Labor

There will be no charge for parts or labor during the warranty period. Replacement parts and Products may be new or recertified at ADT's option and sole discretion. Replacement parts and Products are warranted for the remaining portion of the original warranty or for ninety (90) days from warranty service or replacement, whichever is greater.

## FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/ TV technician for help.

## FCC Radiation Exposure Statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without RF striction.
