SMART MUSIC LED

FCC STATEMENT:

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:—Reorient or relocate the receiving antenna. —Increase the separation between the equipment and receiver. —Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. —Consult the dealer or an experienced radio/TV technician for help. This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Remote controller illustration

1. Power switcher (LED power on or off).
2. Mute.
3. LED flashes slower (while the LED flashes at the lowest frequency, the LED go off for 0.5sec.)
4. LED flashes faster (while the LED flashes at the highest frequency, the LED go off for 0.5sec.)
5. LED on/off
6. Increase brightness
7. Decrease brightness
8. Increase volume
9. Decrease volume
10. Next track
11. Previous track
12. Pause/Play
13. LED light effect switcher
14. Auto changing color mode
15. White (for illumination)
16. Red
17. Green
18. Blue

User instruction

1. Install the bulb in to standard E27 socket.
2. Turn on the power
3. Use the device with Bluetooth (mobile phone, tablet PC, laptop, desktop) search and pairing with ALS-S900.
4. After 3 short notice to me, the pairing and connection is ok, the device can play audio file through the Smart Bulb (some mobile phone and computer need to set the Smart Bulb as their default audio device.)
5. Use the remote controller to utilize all illumination and audio function (next/pre, pause, volume control, brightness control, light effect, color control etc.)

- A. Bluetooth indicator on: the APP is full functional. (The bluetooth indicator off or flashing: please reconnect the device.)
- B. LED light switcher (the power switcher is in the main menu)
- C. White light.
- D. Color light (the word "color" changes color with the light)
- E. Increase the flashing rate (while the LED flashes at the lowest frequency, the LED goes off for 0.5sec.)
- F. Decrease the flashing rate (while the LED flashes at the highest frequency, the LED goes off for 0.5sec.)
