Answer / Reject a call	FAQ	FCC Statement
When receive a call, press the button once (on either earbud) to accept the call, or answer the call normally via your mobile phone. Press and hold the button 2 seconds to reject it.	If the wireless earcuffs cannot be paired with your device, please try the following: Ensure that your earcuffs are in pairing mode or reconnection mode. Ensure that Bluetooth search function of your mobile device is activated.	This device complies with the part 15 of the FCC rules. Operation is subject to the following two conditions:(1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Caution: changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
End a call	If the wireless earcuffs will not turn on: Make sure the earcuffs are fully charged. Make sure the protective stickers are removed from the earcuffs	NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with instructions may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on. The user is encouraged to try to correct the interference by one or more of the following measures: • Reorient or relocate the receiving antenna. • Increase the separation between the equipment and receiver. • Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. • Consult the dealer or experienced radio/ TV technician for help.
Functions	Can I change the battery for the earcuffs and the charging case? The wireless earcuffs and the charging case use a built-in non-detachable battery which cannot be removed.	RF warning statement: The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
Charging your earcuffs	If the charging case cannot be recharged: If you use a power outlet, ensure that the power supply is connected securely and the outlet works.
