How To Use The Microphones

- Microphone On/Off
- Microphone Volume Control
- Microphone Voice Effect
- Microphone LED Indicator
- Microphone USB Type-C Charging Port

1. Turn on the Microphone with the on/off button, it will automatically connect to the Karaoke Speaker.
2. Use the microphone volume control (+/-) to adjust the volume.
3. Long-press (+) to increase microphone reverb volume.
4. Long-press (–) to decrease microphone reverb volume.
5. To mute/unmute the microphone, short-press the on/off button. Karaoke Speaker will play a short tone as a confirmation.
6. Short-press the Voice Effect button to toggle between voice effects: Original (no effect)/ Male (deep voice)/ Female (goddess voice)/ Child (baby voice)/ Monster (distorted voice)
7. When the battery is low, the Microphone LED Indicator will flash rapidly in every five seconds. Please charge the battery immediately.

Caution: Please turn off the microphone before put into the microphone holder. Otherwise may cause loud squealing or damage the product.

Charging your Karaoke Speaker and Microphones

1. Use the USB Type-C charging cable provided with this Karaoke Speaker.
2. Connect the USB plug to a USB port on a computer or wall adapter, then connect the USB Type-C plug to USB Type-C charging port on the speaker or microphones to begin charging.
3. The LED Indicator will turn red while charging and will turn off once fully charged.

NOTE:
• Please fully charge the speaker and the microphones before use.
• You must select a qualified charger from a regular manufacturer.
• You must charge the Karaoke Speaker if it has been not used for more than 6 months.

USB Plug   USB Type-C Plug

FAQ

◆ **If the Karaoke Speaker cannot be paired with your device, please try the following:**
Ensure that your speaker is in pairing mode or reconnection mode.
Ensure that Bluetooth search function of your mobile device is activated.

◆ **If the Karaoke Speaker cannot be recharged:**
If you use a power outlet, ensure that the power supply is connected securely and the outlet works. If you use a computer, ensure that it is connected and the USB port is powered.

⚠ Safety instructions for the lithium battery and charging the product

-The input voltage to the product is DC 5V 1A.

-In order to charge the product in safe manner and reliable conditions, please only adopt certified appropriate charger/ adapter for charging the product.

-Only charge the product at ambient temperatures between 10°C/ 50°F and 40°C/ 104°F.

- Do not heat above 70°C/ 158°F, eg. Do not expose to sunlight or throw into fire.

-Switch off the product after use.

-Please note that we won't take any responsibility for any wrong operation (eg. Voltage higher than 5V) as this may result in severe injury or loss of property, and we cannot control the operating process during the time the user using this product.

-In extreme cases, abuse or misuse of Lithium battery pack can lead to explosion, heat generation, fire development or smoke development.
