

# TranXformer™ + EXPANDABLE BLUETOOTH SPEAKER

## USER'S MANUAL

### FEATURES

- Expandable for increased bass and louder sound
- Suction cup for versatile mounting
- Vibration action turns most large surface into a subwoofer
- Drop proof, Splashproof, and Dirtproof
- Lanyard loop and detachable clip for easy transport – just clip and go
- Adjustable to different sizes and shapes

### POWER SWITCH

Automatic Power Off: The Expandable Bluetooth Speaker will automatically switch off to preserve battery power when Bluetooth is disconnected for 5 minutes.

To turn it on again, please hold down the power button for about 1 second.

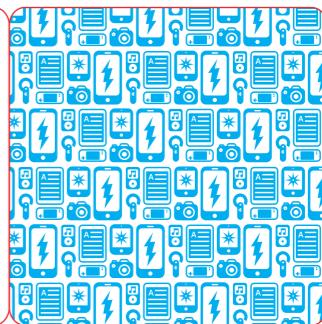

To turn off the speaker manually, please hold down the power button for about 2-second until the LED light flashes red.

### BLUETOOTH PAIRING

Your speaker can sync wirelessly with most Bluetooth enabled devices. The speaker will automatically search for previous connections when it is initially turned on. If a connection is lost, the speaker will look to re-establish that connection again, but will not automatically look for the device again if the Bluetooth connection is turned off on the device until the speaker is turned off and then turned on again. If the device goes out of range and then comes back into Bluetooth range, the speaker will automatically re-establish the connection.

### CONNECTING W/ BLUETOOTH

- Make sure that the speaker is turned on. The blue LED light will flash rapidly indicating that the power is on.
- Turn on Bluetooth on your device and place it in pairing mode (check your device's manual to find out how to add a new device to your device through Bluetooth).
- Place the speaker in pairing mode by pressing and holding the Bluetooth button for about 3 seconds, until you hear a sound
- Select the speaker from the list of discovered devices on your Bluetooth device. Wait for a few seconds until the connection is completed.
- If the connection is successful, a tone will sound on the speaker, and the blue LED light will flash slowly.
- Select a song, movie or game from your media device and enjoy the audio via Bluetooth from your Expandable Bluetooth Speaker.

### BLUETOOTH CONTROLS

Bluetooth Speaker: Pressing the Bluetooth button once can stop/pause the music streaming. You can use the volume "+" and volume "-" buttons to adjust the volume for the speaker.

Hands-free Conference Call: While your phone is paired, you can answer a call by pressing the Bluetooth button once and utilize the speaker's hands-free speakerphone mode. When the phone is in idle, pressing the Bluetooth button twice will redial the number.

### BATTERY

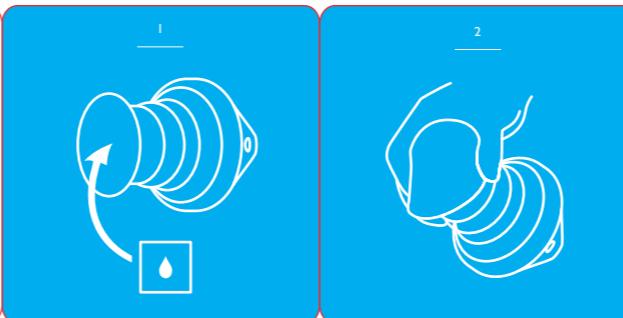

The speaker has a built-in rechargeable battery. When the battery is low, the LED light will flash red. Simply charge the speaker with the included Micro USB. Charging time is approximately 3 hours.

The average play time is 6 hours. You can monitor the battery usage on your mobile device.

### SUCTION CUP

To secure the speaker on a smooth surface such as glass, follow the steps below:

- Clean the surface and the bottom of the suction cup with a wet cleaning cloth to remove any particles of dust.
- Press the center of the suction cup to the surface while holding the speaker as indicated in the picture, then release the sides of the suction cup

- Push the sides of the suction cup against the surface in a complete circle to drive the air out.

Warning: If the above steps are not taken properly, the unit may not adhere securely.

Releasing the Suction Cup: To release the speaker, pull the triangle handle located on the top of the suction cup. Please do not attempt to pull from the top of the speaker as this may result in damage to the speaker.

### VIBRATION ACTION

When the Expandable Bluetooth Speaker is placed on a large surface, it can utilize the surface to produce more bass. You can experiment with different surfaces for different sound frequencies.

## FCC Statement:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment to an outlet on a circuit different from that to which the receiver is connected.

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Note: Modifications to this product will void the user's authority to operate this equipment.**
