(2) Under USB mode , if press the ▷ button to pause/mute for more than 10 minutes.

Note: *Please long press* ⏻ *button again to power on the speaker*

7. Charging

When speaker with low battery capacity, the speaker will prompt "**battery low**", please

charge the battery via a USB adaptor immediately. During charging, the LED indicator will remain on orange. When fully charged, the LED indicator will be off.

Note:
Please use the good quality adaptor to charge the speaker.
We suggest use the adaptor specification at 5V/1A
When speaker with low battery capacity, please charge the speaker immediately
The speaker can be charged by different charging current, if using the computer to charge the speaker, as the current only at 500 mA, the charging time will be very long.

Troubleshooting

1. What should I do if the speaker can not pair with the Bluetooth device and play music accordingly?

(1) Please check the specification/ the manual of the Bluetooth device (your mobile or computer), and check if the device can support the A2DP stereo audio transmission. If yes, please turn on the A2DP stereo mode.

(2) Ensure the speaker is under the Bluetooth pairing status, if there are many Bluetooth devices nearby, the G30 will not easy to be found. Please turn off other Bluetooth devices.

2.What should I do if the speaker get stuck and all the button can not work.

The speaker's inner system may be wrong with some inappropriate operation. Please try

to long press the ⏻ button and hold for 8 seconds to reset the speaker's software.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

-- Reorient or relocate the receiving antenna.

-- Increase the separation between the equipment and receiver.

-- Connect the equipment into an outlet on a circuit different
   from that to which the receiver is connected.

-- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be u sed in portable exposure condition without restriction
