

BLUETOOTH SPEAKER

*Please charge the speaker every three months if the speaker don't play for a long time

Bluetooth: How to Turn On/Off and Connect

Blue light blinks: no audio cable or Bluetooth device is connected yet, in this case, you may connect the speaker to Bluetooth device (mobile phone).

Blue and red light blinks alternately: no audio cable is connected yet while new Bluetooth device is found.

Red light turns on: the speaker is in charging status.

1. Press the power button until you hear a sound and see blue light blinks, which I indicate the speaker is already connected with the device. Press power button until you hear a sound twice and see red and blue lights blink alternately, you may use your smart phone to directly pair with the speaker.

2. In working status, press power button until you hear a sound twice and see the blue and red light turns on, which indicates the speaker is shutting down.

3. While the speaker is playing music via Bluetooth, the music will pause and you will hear the ringtone in case of any incoming call. You may press phone function key to answer the call. Press the phone function key twice time, decline the last phone number and then press it again to end this call so that the product will continue to play music. You may also press and hold the phone function key for 1 second to decline the incoming call and the speaker will continue to play music.

4. Press and hold VOL+ to increase the volume, which will reach the maximum value when you hear beep sound.

5. Press and hold VOL- to decrease the volume

6. Press VOL+/NEXT track button, the speaker will play the next song. Press VOL-/Previous track button, the speaker will play the previous song.

7. The sound volume can also be controlled by using smart phone or other Bluetooth device.

8. Once you hear "toot, toot..." while playing music, it means the speaker is out of power, please charge the speaker immediately.

9. In charging status, the red light is on. Once fully charged, the red light goes out. In order to maintain battery capacity, please fully discharge and charge the battery every three months whether you use it or not during such period.

Connect the speaker to Bluetooth Device

Before connecting the speaker to Bluetooth device, please make sure Bluetooth is enabled and no other audio device is connected via AUX port.

If so, the music saved in Bluetooth device will be paused.

6. Check whether the speaker is running out of power?

If so, please charge it and restart.

Music is suspended.

Check whether is running out of power?

Technical Parameters

Voltage:5V; Current: 1800mA (at DC end)

Charger

Input power: 100~240V/ 50~60Hz

Output power : 1A USB

Rechargeable battery: 3.7V 1800mAh polymer lithium battery

Charging time: around 3 hours

Working hours: around 8 hours

Power Amplifier

Interface: 3.5mm jack

Output power: 2*3W THD=10%

Input sensitivity: 800mV/KHZ

Frequency: 40Hz~19KHZ

SNR: >50db

Stereo isolation: >40DB

Volume: 90db

Bluetooth

Version: 4.0

Range: Max. 15.0M

Environment temperature: +10oC~+40oC

Dear Sir/Madam:

Thank you for purchasing Bluetooth Speaker.

This product adopts high-capacity polymer lithium battery, bass and noise reduction techniques, general Bluetooth audio module and A2DP for audio transmission to give you hi-fi sound.

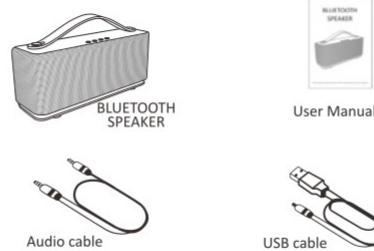

Also, it has built-in microphone to support hands-free talking and satisfy you with excellent user experience. Please read this manual carefully and completely before using the device. Please keep this manual for future reference.

Safety Notes

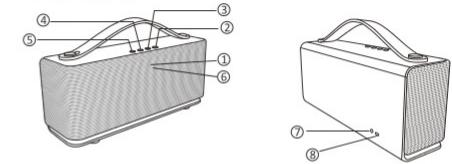

1. Please adjust the volume properly to avoid excessive output power, which may impair your hearing.
2. Please keep the device away from moisture, rainwater, sand, heat source and any container with liquid.
3. Please clean this device with slightly wet cloth instead of alcohol or benzene-containing solvent.

*Please charge the speaker every three months if the speaker don't play for a long time

Charge the Battery

When the battery is running low, you will see the red light blink twice every four seconds and hear warning tone at the same time, in this case, please charge the battery immediately.

When the battery is fully charged, the red light will turn off automatically. You may charge the battery by connecting it to PC or power source via USB Cable.

1. Insert DC port of cable into the speaker via the jack marked with "5V"
2. Insert USB port of cable into PC or charger.
When the battery is being charged, the red light turns on.
Once the battery is fully charged, the red light turns off.
It takes 2 to 3 hours to be fully charge the battery.
The speaker is able to work for 8 hours is Bluetooth mode when fully charged
(The working hours may vary due to volume, exterior environment and other factors.)
You can listen music when the speaker is in charging status, however, it may take long time for charging battery.

1. Insert one end of audio cable into the headset jack of your mobile phone and insert the other end into AUX port in the speaker.

2. Turn on both the speaker and mobile phone.
3. Turn on music player built in mobile phone.
4. Increase the volume of mobile phone to the maximum, and then adjust by pressing VOL+ /VOL- on the speaker.
*Before disconnecting mobile phone and the speaker, please firstly turn both of them off.

Troubleshooting

The speaker doesn't work.

1. Check whether the battery power ran out?

If so, please connect the speaker to PC or USB charger for charging.

2. Check whether it is powered off or in standby status?

If so, please press power button until you see the indicator light turns on or blinks.

3. Check whether it is far away from Bluetooth device or mobile phone?

If so, please get them close to each other.

Fail to connect the speaker to other Bluetooth device or mobile phone.

1. Check whether the speaker can be paired with such device or mobile phone.

Please refer to user manual of such device or mobile phone.

2. Check the settings of your mobile phone to see Bluetooth is turned on?

Please set on Bluetooth and then check whether the speaker is on the list of coverable devices. If not, please try again.

3. Check whether you entered password correctly?

Please click settings and check.

Fail to play music.

1. Check whether there is no music file saved in your device?

Please check music folder in your device by referring to relevant instructions.

2. Check whether the music is paused?

If so, please press power button to resume playback.

3. Check whether the volume of your device is too low?

4. Check whether the volume of the speaker is too low?

5. Check whether the speaker is connected to other audio device via AUX port?

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning:Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.
